45 NSNs - Glands & Seals

The purpose of this solicitation is to provide worldwide support for the National Stock Numbers (NSNs) listed in Attachment 1. The NSNs are within FSCs 1560 & 1650 and NAICS 336413. The NSNs will be evaluated on a line-by-line basis and multiple contracts may be awarded. Contractors may quote on as many NSNs as they have the capability to perform. The contract(s) awarded will be Indefinite Delivery Indefinite Quantity type contract(s). The solicitation contains a two-year base period with three one-year option periods.

The contractor shall function as a source of supply for the NSNs on this contract to consistently deliver parts to the DLA Depots. Delivery Orders will be issued to the contractor through the Paperless Ordering Placement System (POPs). The contractor shall interface with DoD Information Systems in an Electronic Commerce/ Electronic Data Interchange (EC/EDI) environment as specified in section titled 'System Interface and Integration' below. On an exception basis, manual delivery orders may be issued for these items.

The Contracting Officer intends to evaluate proposals in accordance with the evaluation factors set forth in section M of the solicitation. In accordance with FAR 52.215-1, contracts will be awarded without discussions. However, the Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. Contracts will be awarded on a NSN by NSN basis in the following order:

A. NSNs that do not require discussions will be awarded first.
B. NSNs that do require discussions will be awarded in subsequent phases.

Pricing: The Contractor is to provide pricing for the base period and option periods. Attachment 1 identifies the NSNs, and estimated demand quantities for the base period and option periods. Please provide contractor pricing on this spreadsheet. Contractors are encouraged to consider minimum order quantities (MOQ) when setting prices. Contractors are not required to honor orders for quantities less than the MOQ [see clause I67, 52.216.19]. However, it is important to note that offers will be evaluated based on the estimated annual demand quantity (ADQ) [see clause M12, 52.216-9G09]. These numbers are based on the best projection available at the time of this solicitation and are subject to change. Some of the NSNs may have ADQs of zero; however, these NSNs may not necessarily have zero demands. They may, in fact, be items recently assigned to DSCR, or items for which historical data is otherwise incomplete or unavailable, or items for which the Government has no recurring demands and therefore, cannot forecast any realistic estimates. Offerors are encouraged to submit offers consistent with quantities reflected in their own historical data where available.

For evaluation purposes, each individual NSN will be evaluated by multiplying the proposed unit price times the ADQ to arrive at the estimated total for each NSN. In those cases where the annual demand

quantity is zero, the government will use (1) to represent the quantity.

**Vendors are required to submit pricing in an electronic format (spreadsheet) either through e-mail or on a disk to help expedite the evaluation process.

I71, 52.216-22, Indefinite Quantity: The minimum contract value is defined as the guaranteed monetary value of the aggregate orders issued during the base period only. The minimum will not guarantee orders for any particular item or group of items. The Government will not guarantee a minimum for the option periods. The Government will compute a different minimum for each contract awarded under this solicitation in accordance with the following formula:

The guaranteed minimum contract value will be determined in accordance with the following formula:

10% of the aggregate extended dollar value of the estimated annual demand quantity (ADQ)for the NSNs on contract (base period only), computed as follows:

0.1 x ([NSN1 price x ADQ] + [NSN2 price x ADQ] + etc).

The maximum contract values will be determined in accordance with the following formula:

150% of the aggregated extended dollar value of the estimated annual demand quantity (ADQ) for the NSNs on contract, computed as follows:

1.5 x ([NSN1 price x ADQ] + [NSN2 price x ADQ] + [NSN3 etc.])

Delivery: The contractor shall deliver to the DLA distribution depot as designated on each DO. The contractor shall ship ordered items on or before the required contract delivery date specified in the DO. The required delivery date for each NSN is indicated in Attachment 1.

Delivery shall be FOB destination. Inspection and Acceptance requirements are provided in Attachments 3 and 5. The Contractor shall consolidate shipments from the same source to the same destination whenever possible. The DPAS rating will be cited on each delivery order.

Surge and Sustainment: Surge and Sustainment NSNs are identified in Attachment 2. Surge and Sustainment requirements are outlined in clauses 52.217-9G25 and 252.217-9006 in Section I, in instruction 52.217-9G26 in Section L, and in 52.217-9G27 in Section M. In the attachment, the individual quantity requirements for each month are identified as well as the total six-month requirement per NSN. 'Surge Support' is one of the evaluation factors; therefore, offerors are required to comply with the specific clauses/provisions.

Surge and Sustainment Requirement. Notice to Offerors: The 6000 Clin Series is the surge quantity that may be ordered by the Government in a

military contingency. The Government is not obligated to order any of the surge quantities and the contractor should not ship such quantities without receipt of an order clearly designated for surge quantities. The surge quantity requirements are identified in Attachment #2.

Investment costs: Investment costs, if any, to execute the surge plan otherwise state 'none'. Reference Clause 52.217-9G25, 252.217-9006 and 52.217-9G26

Packaging Requirements: Higher-level packaging requirements in accordance with MIL-STD-2073 apply. All items shall be marked in accordance with MIL-STD 129. The contractor is required to package material in accordance with Quantity Unit Pack (QUP) specified in MIL- STD-2073 and the Unit of Issue (UI) specified in each DO.

Quality: The contractor shall establish, implement, document and maintain a quality system that ensures conformance to all contractual requirements and meets the requirements of ISO 9001:2000. However, the contractor may propose an equivalent quality system model. If the contractor chooses to propose an equivalent quality, the clause in E5 - 52.246-11 - Higher Level Quality Requirements must be completed.

NSNs that require origin inspection are coded C or 1 in the PIC field of the Quality Matrix (Attachment 3). NSNs that require destination inspection are coded 2 in the PIC field. Quality Assurance Provisions for each NSN also appear in Attachment 3.

Access to Technical Data Packages: Items shall be manufactured in accordance with Government technical data packages and drawings. The contractor may obtain technical data packages using the following website: http://www.dscr.dla.mil/tdmd. Contractors must have a membership number to access technical data. Contractors must follow the instructions provided on this website to obtain a membership number and technical data.

The Contractor is responsible for notifying the Government if the drawings or technical data is different from the information cited in the Acquisition Item Description (AID). Attachment 5 includes item descriptions obtained from the Contract Technical Data File (CTDF).

System Interface and Integration: In accordance with Clause52.211-9G33-POPS- Computer Compatibility, the contractor shall establish interface capability with DLA's Standard Automated Material Management System (SAMMS) and Defense Automated Addressing System (DAAS). These interfaces will be for purposes of sending and receiving EC/EDI transmissions, electronic invoices and/or receipt transactions processing, and establishing two-way communication for logistics and management information. The Contractor shall ensure adequate systems interfaces are used to integrate commercial systems with Government systems for the entire logistics trail.

The following two EDI transactions are required for the purposes of transmitting the DOs and Tracking Performance:
850 Purchase/Delivery Order
856 Shipment Notice Manifest

The Purchase/ Delivery Order (850) will be processed through Defense Supply Center Richmond. The Shipment Notice (856) will identify the order shipment date of the total quantity.

SECTION C

C3 52.211-9G33 POPS - COMPUTER COMPATIBILITY DSCR (MAR 2001)

(a) In support of the Paperless Ordering Placement System (POPS), the awardee will be required to have a compatible computer system capable of accepting our offers and processing Electronic Data Interchange (EDI) transactions.The American National Standards Institute's (ANSI) X12 Standard will be utilized for formatting the EDI transactions. The EDI system must be available for on line processing not later than 30 days after date of award.

(b) The computer system must also be Year 2000 (Y2K) Compliant. Year 2000 compliant, used with respect to technology, means that the information technology accurately processes date/time data (including, but not limited to, calculating, comparing, and sequencing) from, into, and between the twentieth and twenty-first centuries, and the years 1999 and 2000 and leap year calculations, to the extent that other information technology, used in combination with the information technology being acquired, properly exchanges date/time data with it.

(c) The following ANSI X12 transaction sets are currently sent, received, and processed by the Defense Supply Center Richmond:

850 Purchase/Delivery Order Transaction Set
856 Ship Notice/Manifest Tranaction Set

(d) Awardee must be capable of sending, receiving, and processing the above ANSI X12 transaction sets and have an electronic mailbox on a DAASC certified Value Added Network (VAN). For 856 Ship Notice/Manifest Transaction Sets, the awardee will have the option of using the Web-856 application, if it becomes available.

(e) Information regarding EDI, ANSI X12 transactions, and DAASC approved VANs can be obtained from the DAAS web site by going to www.daas.dla.mil, then select SYSTEMS & SERVICES, next select EC/EDI, and lastly select DAASC's VAN LIST.

(f) Specifics of the POPS System can be obtained from:

SECTION D

D4I 52.211-9G45 POPS-SPECIAL MARKING INSTRUCTIONS DSCR (OCT 2001)

NOTICE FOR DIRECT VENDOR DELIVERIES: In addition to the requirements of paragraph 5.1.6.2., Markings of ASTM D3951, markings on exterior shipping containers will contain as a minimum the NSN, requisition number, and the contract delivery order number. These markings are to be applied through stenciling or other means, directly to the exterior shipping container or included in the body of the invoice/shipping document which will be permanently affixed to the exterior shipping container. Regardless of method used, all markings must be visible to receiving personnel. When the total number of containers going to the same destination exceeds either 250 pounds (excluding pallet) or a volume of 20 cubic feet, then palletization is required except for 55 gallon drums.

NOTICE FOR SHIPMENT TO DLA STOCK LOCATIONS: Shipments to DLA stock locations must be marked in accordance with MIL-STD-129N dated 15 May 97 and AIM BC 1 with the following exception: Marking, including barcoding, and fragile marking (if required), must be on the outside container and all intermediary containers down to the specified QUP. DSCR Clause 52.211-9G22 (Sec F) applies.

D4K 52.211-9G73 PACKAGING AND MARKING REQUIREMENTS (JUL 2002) DSCR

(a) Unless stated otherwise, commercial packaging in accordance with ASTM-D-3951 is required for CONUS shipments from the contractor directly to the customer. Commercial packaging and marking is not sufficient for vendor shipments requiring movement through the Defense Transportation System (also referred to as the Military Distribution System or DLA Depot) as the shipment could ultimately be moved via Military Air.

(b) Higher level packaging in accordance with MIL-STD-2073 is mandatory for all shipments that meet the below criteria:

Movement through the Defense Transportation System including shipments to a Military Distribution facility or depot.
OCONUS shipments
FMS shipments
Hazardous material, as cited in the AID or in the Quality Requirements Matrix.

(c) Materials not considered as HAZMAT for CONUS or OCONUS commercial air shipments may be considered HAZMAT for MILAIR shipments OCONUS. As such, contractors/shippers shall ensure that material meeting HAZMAT definitions in DLAI 4145.3, Preparing Hazardous Materials for Military Air Shipment, is packaged in accordance with that instruction when the consignee is OCONUS and the shipment will be moved through the Defense Transportation System. DLAI 4145.3 is available on the internet at: www.dscc.dla.mil/downloads/packaging/dlai4145_3.pdf.

(d) All items shall be marked in accordance with MIL-STD-129. Hazardous items and shelf life items, as cited in the AID or in the Quality Requirements Matrix, shall be marked in accordance with MIL-STD-129 and the appropriate clauses cited in the appendix to the matrix and the contract. The contractor is required to package material in accordance with Quantity Unit Pack (QUP), specified in MIL-STD-2073 and the Unit of Issue (UI), specified in each delivery order. A packing slip shall be located in a plastic pouch on the outside of the package. For HAZMAT destined OCONUS, a hard copy of the Material Safety Data Sheet (MSDS) must also be included.

(e) In the event of deployments, this clause may be invoked when shipments originally destined for a CONUS location are diverted to OCONUS destinations thereby necessitating movement of the material through the Defense Transportation System. In such an event, contractors will be notified by the Contracting Officer and an equitable adjustment will be made in the contract price as deemed appropriate.

NOTE: Applicable to negotiated solicitations. Offers that do not comply with the packaging and marking requirements as specified in Section D of this solicitation may be subject to rejection as being technically unacceptable.

SECTION E

E3 52.246-2 INSPECTION OF SUPPLIES - FIXED PRICE (AUG 1996)

E5 52.246-11 HIGHER-LEVEL CONTRACT QUALITY REQUIREMENT (FEB 1999)

The Contractor shall comply with the applicable higher-level contract quality requirement cited below, which is hereby incorporated into this contract:

ISO 9001 or ANSI/ASQC Q9001 when Quality Assurance Provision (QAP) 005, 006, 159, 189, 216, 222, V02, or V03 is included.

ISO 9002 or ANSI/ASQC Q9002 for any other QAPs.

DSCR NOTE to 52.246-11:

The higher-level standards referenced above shall apply unless the contractor indicates the proposal is based on a contractor's preferred quality system as identified below:

[ ] Other recognized industry standard(s) (but non-ISO/ANSI/ASQC) that is equivalent to or better than applicable ISO/ANSI/ASQC standard indicated above.
Specify _____

[ ] Other process control system that is equivalent to or better than the applicable ISO/ANSI/ASQC standard indicated above which has not previously been determined to be insufficient for the Government's purpose. This may include previously recognized MIL-I-45208 or MIL-Q-9858 systems which have been augmented to be equivalent to ISO 9002 or ISO 9001 respectively.

[ ] An existing system modeled after
[ ] MIL-I-45208 or
[ ] MIL-Q-9858
and not previously determined insufficient for the Government's purpose.
THIS OPTION IS PERMITTED ONLY AS AN INTERIM MEASURE TO ALLOW CONTRACTORS TO TRANSITION TO ISO/ANSI/ASQC STANDARDS.

Third party certification/registration is not required nor will it be considered a substitute for the Government's right to audit/validate a contractor's quality system. ISO 9001 can be accepted for ISO 9002 requirements, however, the reverse does not apply.

MIL-STD-105 has been replaced by ANSI/ASQC Z1.4-1993, Sampling Procedure and Tables for Inspection by Attributes.

MIL-STD-45662A has been replaced by either ISO 10012-1, Quality Assurance Requirements for Measuring Equipment or ANSI/NCSL Z540-1, General Requirements for Calibration Laboratories and Measuring Equipment and Test Equipment.

F1BA 52.211-16 VARIATION IN QUANTITY (APR 1984)

(b) The permissible variation shall be limited to:

0 % (Percent) Increase 0 % (Percent) Decrease

This increase or decrease shall apply to the quantity at the line item level, or for phased delivery at the sub-clin level, as designated by item number followed by two alphas, i.e. 0001AA. The variation (if any) shall be shipped with the quantity for the line item, or for phased delivery the quantity specified for each sub-clin. Under no circumstances will the contractor ship a variation in quantity against any line item/sub-clin other than as specified in the delivery schedule.

DSCR NOTE: Any quantity shipped against the line/sub-clin that exceeds the stated line item/sub-clin quantity plus variation (if any) will be returned and the contractor will be responsible for return shipment costs.

I38DC 52.211-9005 CONDITIONS FOR EVALUATION AND ACCEPTANCE OF OFFERS FOR CRITICAL SAFETY ITEMS DLAD (DEC 2001)

(a) Definitions.

'Actual manufacturer' means an individual, activity, or organization that performs the physical fabrication processes that produce the deliverable part or other items of supply for the Government. The actual manufacturer must produce the part in-house. The actual manufacturer may or may not be the design control activity.

'Approved source' means a prime contractor or the actual manufacturer(s) cited in the acquisition identification description (AID). It does not include design control activities with no manufacturing capability.

'Critical safety item' (CSI) means a part, assembly, installation, or production system with one or more critical characteristics that, if not conforming to the design data or quality requirements, would result in an unsafe condition that could cause loss of, or serious damage to, the end item or major components, loss of control, or serious injury or death to personnel.

'Design control activity' means a contractor or Government activity having responsibility for the design of a given part, and for the preparation and currency of engineering drawings and other technical data for that part. The design control activity may or may not be the actual manufacturer.

'Exact product' and 'alternate product' are defined in the provision at DLAD 52.217-9002, Conditions for Evaluation and Acceptance of Offers for Part Numbered Items.

'Prime contractor' means a contractor having responsibility for design control and/or delivery of a system/equipment such as aircraft, engines, ships, tanks, vehicles, guns and missiles, ground communications and electronics systems, and test equipment.

'Rebranding' means remarking, re-labeling, repackaging, or otherwise obscuring the marking of the approved source cited in the AID (i.e., the prime contractor or actual manufacturer).

(b) The item being acquired is a critical safety item (CSI). Given their vital importance and the catastrophic consequences that can result if they fail, procurement of these items requires the highest standards of oversight and verification.

(c) This provision applies only to offers of 'exact product.' Offers of 'alternate product' will be evaluated in accordance with the clause at DLAD 52.217-9002.

(d) If the Offeror is the prospective awardee and is not currently an approved source cited in the acquisition identification description (AID) on the schedule page of this solicitation, the Offeror will be requested by the Contracting Officer to provide documented evidence prior to award sufficient to establish that the item being offered is (or will be) the exact item cited in the AID and is (or will be) manufactured by an approved source cited in the AID. Additionally, if the Offeror manufacturers the offered item for an approved source cited in the AID, evidence of approval and acceptance by the approved source will be required. Evidence must include the following at a minimum:

(1) If offered item(s) are 'not in stock' or 'not yet manufactured' --

(i) A copy of Offeror's Request for Quotation to approved source cited in AID; and

(ii) An original, hard copy of quotation received by Offeror from approved source cited in AID; or other verifiable documentation of quotation. (If Offeror is unable to provide this documentation to the Contracting Officer prior to award, it must be provided to the Quality Assurance Representative (QAR) for examination at time of source inspection.)

(2) If offered item(s) are 'shipped' or 'in stock' --

(i) A copy of invoice on approved source's letterhead. (Invoice must identify exact item cited in AID and a quantity sufficient to satisfy the solicitation requirement.); or

(ii) A copy of packing slip which accompanied shipment from approved source to Offeror. (Packing slip must identify exact item cited in AID and a quantity sufficient to satisfy the solicitation requirement.); and

(iii) Inventory control records to establish that items Offeror proposes to furnish under current order

CONTINUED ON NEXT PAGE

are still in Offeror's stock. (This documentation is mandatory and must be provided to Quality Assurance Representative (QAR) for examination at time of source inspection. Documentation may be provided to Contracting Officer prior to award, at Offeror's discretion.)

(3) If Offeror is an authorized dealer/distributor, or manufactures the item for an approved source --

(i) An authorized dealer/distributorship agreement, licensee agreement, or other type of agreement. (The agreement must specifically identify the exact item, or otherwise ensure that the Offeror is authorized by the approved source to manufacture or distribute the exact item being acquired. If the agreement covers a general product line or is otherwise not product-specific, the Offeror must also furnish additional documentation to address the exact item being acquired (see above).); or

(ii) Letter from an approved source cited in the AID, specifically identifying Offeror as authorized to distribute or manufacture the exact item cited in the AID for that approved source; or

(iii) Other verifiable information (e.g., listing of authorized dealers on official Web page of an approved source) to establish the Offeror's authority to manufacturer or distribute the exact item cited in the AID for an approved source cited in the AID.

(4) When the AID specifies a revision number --

(i) Documentation establishing that the offered item was (or will be) made in accordance with the revision cited in the AID. (This requirement is considered to have been met when documentation provided by Offeror to satisfy other portions of this provision already establishes that offered item was (or will be) made to the revision cited in the AID); or

(ii) Documentation identifying the revision offered and the differences between the revision offered and the revision cited in the AID.

(e) By the submission of this offer, the Offeror represents that --

(1) The item(s) to be provided to the Government -

(i) Is (or will be) in full compliance with all requirements specified in the solicitation; and

(ii) Is not (or will not be) --

(A) A factory second;
(B) Changed, mutilated, or rebranded;
(C) A manufacturer's overrun;
(D) A rejected item; or
(E) Government surplus material (unless Offeror has complied with clause at DLAD 52.211-9000, Government Surplus Material).

(2) In the event of item failure, Offeror will have access to, and will provide to the Government upon request, all information necessary to trace the item back through the manufacturing process.

(3) Any documentation provided by Offeror will correspond to the exact item(s) that will be furnished to the Government; or Offeror will obtain updated documentation and provide it to the Government (if, for example, Offeror sells item(s) to another Buyer before award or before tender for acceptance).

(f) Failure to provide adequate documentation within the timeframe requested by the Contracting Officer may result in rejection of the offer.

I38DD 52.211-9006 CHANGES IN CONTRACTOR STATUS, ITEM ACQUIRED, AND/OR MANUFACTURING PROCESS/FACILITY -- CRITICAL SAFETY ITEMS DLAD (JUL 2002)

(a) If any changes occur in the Contractor's business status or relationship with the approved source(s) after award of this contract (such as, for example, inability to obtain manufacturing process information; or changes in status as authorized dealer/distributor, or in terms of licensing arrangement), the Contractor shall immediately provide notification and documentation of the changes to the Administrative Contracting Officer(ACO).

(b) The Contractor shall immediately provide to the Administrative Contracting Officer (ACO) notification (and documentation, if available) of any of the following changes the Contractor becomes aware of:

(1) Later revisions to drawings, specifications or standards that differ from the revision cited in the acquisition identification description (AID) in the contract;
(2) Changes in the manufacturing process;
(3) A change in the approved source's manufacturing location; or
(4) A transfer of manufacturing facilities by the approved source since last manufacture.

I38DE 52.211-9007 WITHHOLDING OF MATERIEL REVIEW BOARD (MRB) AUTHORITY - CRITICAL SAFETY ITEMS DLAD (JUL 2002)

The item being acquired is a critical safety item. Notwithstanding any other term or condition included in this contract/agreement, Materiel Review Board (MRB) authority is hereby withheld. (This clause does not apply to sources that have explicit authority to retain MRB authority, which are identified on the DSCR Technical Oversight Office (TOO) Web site at http://www.dscr.dla.mil/vg/CriticalPartReview.htm.)

I50 52.215-2 AUDIT AND RECORDS - NEGOTIATION (JUN 1999)

I50C 52.215-8 ORDER OF PRECEDENCE (OCT 1997)

I66 52.216-18 ORDERING (OCT 1995)

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued --

FROM: EFFECTIVE DATE OF AWARD

THROUGH: 730 DAYS THEREAFTER

DSCR NOTE: Ordering period above is based upon the assumption that an award will be made by TBD . The ordering period specified in paragraph (a) above will be extended by the number of calendar days after the assumption date that the contract is, in fact, awarded.

I67 52.216-19 ORDER LIMITATIONS (OCT 1995)

(a) Minimum Order. When the Government requires supplies or services covered by this contract in an amount of less than N/A DVD or SEE ATT. 1 Stock, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) Maximum Order. The Contractor is not obligated to honor -

(1) Any order for a single item in excess of N/A DVD or SEE ATT. 1 Stock

(2) Any order for a combination of items in excess of N/A , or

(3) A series of orders from the same ordering office within 30 days that together call for quantities exceeding the limitation in subparagraph (1) or (2) above.

(d) Notwithstanding paragraphs (b) and (c) above, the contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within 10 days after issuance, with written notice stating the contractor's intent not to ship the item (or items) called for and the reasons.

I67A 52.216-19 DSCR NOTE POPS - MINIMUM ORDER QUANTITY DSCR (AUG 1990)

FAR Clause 52.216-19, above, provides for a minimum delivery order amount of $ SEE ATTACHMENT 1 . Notwithstanding such minimum order amount, the minimum order quantity per delivery order shall be not less than the Quantity Unit Pack (QUP) quantity (manufacturer's standard pack for items without an identified QUP) and all orders will be in multiples of the QUP.

I71 52.216-22 INDEFINITE QUANTITY (OCT 1995)

(d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after 334 days from the date of contract expiration.

I86 52.217-2 CANCELLATION UNDER MULTI-YEAR CONTRACTS (OCT 1997)

I88 52.217-9 OPTION TO EXTEND THE TERM OF THE CONTRACT (MAR 2000)

(a) The Government may extend the term of this contract by written notice to the Contractor within 30 days prior to contract expiration; provided, that the Government gives the Contractor a preliminary written notice of its intent to extend at least 60 days before the contract expires.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed 60 months.

I88G 252.217-7001 SURGE OPTION DFARS (AUG 1992)

The Government has the option to--

(1) Increase the quantity of supplies or services called for under this contract by no more than the amount stated in the schedule; and/or

(2) Accelerate the rate of delivery called for under this contract, at a price or cost established before contract award or to be established by negotiation as provided in this clause.

I89F 252.217-9006 LIMITATIONS ON SURGE AND SUSTAINMENT (S&S) INVESTMENTS DLAD (JUL 1999)

I91 52.217-9G08 OPTION TO EXTEND THE TERM OF THE CONTRACT - SUPPLIES DSCR (JUL 2000)

(b) **THE OFFEROR AGREES TO FURNISH DURING THE OPTION PERIOD THOSE ITEMS CITED IN THE SCHEDULE AT UNIT PRICES AS INDICATED BELOW:**

CAUTION: Failure to indicate one of the following may result in rejection of your offer.

[ ] Option unit prices are the same as the unit prices offered for the basic contract, or

[ ] Option period unit prices are as indicated in the schedule.

I92BB 52.217-9G15 FLEXIBLE OPTIONS DSCR (JAN 2000) ALT I

(a) This solicitation is for an indefinite quantity with a guaranteed minimum for the base year. It also includes 3 options for one year each.

(c) To exercise this right, the Government will provide written notice of its intent to exercise the option any time after having ordered 75 % of the stated maximum or within thirty days of the effective date of any delivery order that reaches the stated maximum quantity.

I92F 52.217-9G20 ADDITION/DELETION OF ITEMS ON CONTRACT DSCR (DEC 2000)

(a) The Government retains the right to unilaterally delete from the contract, at each option renewal period, any items which were awarded on a sole source basis, in the event that an alternate product is available from another source.

(b) The Government reserves the right to bilaterally add to the contract new or replacement items, by modification, at prices to be negotiated. All new requirements are subject to full and open competition for the period of time remaining on the contract prior to addition to the contract.

(c) If any item in this contract becomes obsolete or is discontinued as a commercial catalog item, the contractor will provide the Government thirty (30) days advance written notice of such obsolescence, or cancellation and agrees to honor delivery orders for the item issued under this contract during such thirty (30) day period. The Government will delete any such item from this contract after receiving the required notice. If the contractor considers another commercial catalog item as a suitable substitute or replacement for the discontinued item, it will so advise the Government at the time it advises of the discontinued item. If the Government elects to include the replacement item in the contract, the contract will be modified accordingly.

(d) If the contractor discontinues an item without replacement, the contractor will advise the Government of alternate sources of supply for a comparable item.

I92K 52.217-9G25 SURGE & SUSTAINMENT REQUIREMENT DSCR (JUN 2001)

(a) Definitions. As used in this clause-

(1) 'Surge and Sustainment (S&S) Capability' means the ability of the contractor and base suppliers to meet increased quantity/accelerated delivery requirements, using production and supplier base capabilities, in support of a broad spectrum of possible Department of Defense contingencies. This capability includes both the ability to ramp-up to meet early requirements (i.e., surge), as well as to sustain an increased production and delivery pace throughout the contingency(ies) (i.e., sustainment). The spectrum of possible contingencies includes major theatre warfare and smaller-scale contingency operations.

(2) 'Surge and Sustainment (S&S) Quantity' means the quantity beyond peacetime level requirements necessary to support contingency operations. The quantity and required delivery are identified on an NSN basis, representing that needed to support two separate contingency operations for a specified time period, generally a year unless otherwise specified in the schedule.

(b) Scope of Requirement. The Contractor agrees to maintain the capability to produce and deliver the quantity of supplies or services identified in the schedule as the S&S requirement throughout the life of the contract. This capability shall be maintained in addition to peacetime level requirements and other existing Government contracts.

(1) Notification of S&S Capability Changes. Changes that negatively impact S&S capability shall be reported in writing to the Contracting Officer within ten working days after the contractor becomes aware of such impact. Such notification shall include the Contractor's proposed corrective action plan.

CONTINUED ON NEXT PAGE

(2) Changes and Additions. The Government reserves the right to revise, reassess, or update S&S requirements during the life of the contract.

(3) Agreement to Participate in S&S Validation/ Testing. By submission of an offer for the S&S requirement, the contractor agrees to participate in S&S testing as required by the Government to validate the S&S capability. Testing/validation may include, but not be limited to, participation in live exercises, participation in Commander-in-Chiefs or Joint Chiefs of Staff exercises approved in the DLA Joint Training Plan, paper exercises, simulations, or command post exercises. The Government reserves the right to require tests using other methodologies when deemed appropriate.

(c) Ordering. Any S&S designated supplies or services to be furnished under this contract will be ordered in accordance with the ordering clause by issuance of delivery orders or task orders specifically identified as 'S&S Orders.'

(1) Effective Date for S&S Capability. Orders for the S&S quantity may be issued immediately after award unless the contractor has identified during negotiations, and the Government has approved, an alternate date for the contractor to attain the required S&S capability. The contractor's capability assessment shall clearly support the alternate date for attaining full S&S capability.

(2) Limitations. The order limitations clause applicable to the peacetime level requirements shall not apply to the S&S quantity to the extent that it conflicts with the quantity necessary to support a contingency. The Government reserves the right to order less than the total phased quantity specified for each S&S delivery. The Government may order in excess of each phased delivery quantity provided the contractor shall accept the excess quantity. Multiple orders for the same NSN may be issued to support multiple contingencies provided the total quantity ordered does not exceed the total S&S quantity for all phases of delivery.

(3) Contract Ceiling. The Government reserves the right to increase the contract ceiling as necessary to accommodate the S&S quantity to the extent such quantity was not considered when establishing the initial contract ceiling.

(d) Options to Extend the Contract Term: The Government may consider the contractor's performance of the S&S requirements in determining whether exercise of the option is the most advantageous method of meeting the Government's needs. Factors that may be considered include maintenance of the S&S capability; results of validation/testing; performance during an actual contingency; and other pertinent information related to the S&S requirement.

I121A 52.222-21 PROHIBITION OF SEGREGATED FACILITIES (FEB 1999)

(a) 'Segregated facilities,' as used in this clause, means any waiting rooms, work areas, rest rooms and wash rooms, restaurants and other eating areas, time clocks, locker rooms and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided for employees, that are segregated by explicit directive or are in fact segregated on the basis of race, color, religion, sex, or national origin because of written or oral policies, or employee custom. The term does not include separate or single-user rest rooms and necessary dressing or sleeping areas, provided to assure privacy between the sexes.

(b) The Contractor agrees that it does not and will not maintain or provide for its employees any segregated facilities at any of its establishments, and that it does not and will not permit its employees to perform their services at any location under its control where segregated facilities are maintained. The Contractor agrees that a breach of this clause is a violation of the Equal Opportunity clause in this contract.

(c) The Contractor shall include this clause in every subcontract and purchase order that is subject to the Equal Opportunity clause of this contract.

I172	52.227-9G05	RESTRICTIONS ON USE OF RIGHTS GUARD TECHNICAL DATA DSCR (FEB 1998)

THIS IS A RIGHTS GUARD PROCUREMENT AND THE FOLLOWING RESTRICTIONS APPLY:

(a) Technical data furnished herewith (hereinafter Rights Guard technical data) is proprietary to The Boeing Company which has licensed the Government to use same for the procurement of replenishment spare parts for U.S. Government owned aircraft and for no other purpose. Rights Guard technical data shall not be disclosed, in whole or in part, to any other person or entity other than to supplier's bidder's offeror's employees, having a need to know and who are under an obligation to preserve and protect such data under terms and conditions no less restrictive than those imposed herein, and then only for the purposes if responding to this solicitation or performing any resulting contract.

(b) The suppliers/bidders/offerors hereunder are prohibited from (1) reproducing, in whole or in part, Rights Guard technical data; (2) incorporating any information contained in such Rights Guard technical data into other documentation; or (3) otherwise utilizing such Rights Guard technical data, except for responding to this solicitation or performing any resulting contract. Each supplier/bidder/offeror shall include the authorized DFARS limited rights legend of 252.227-7013, Rights in Technical Data - Noncommercial Items (NOV 1995), identifying the Boeing Company as the owner, on all Rights Guard technical data that is incorporated, in whole or in part, into any technical data delivered by such supplier/bidder/offeror to the Government in response to this solicitation or as part of the performance of any resulting contract. In the case of the limited rights legend, the Contractor shall indicate such Rights Guard technical data as not being subject to an expiration date, if such date is required by the limited rights legend authorized under its contract.

(c) Rights Guard technical data provided by DSCR, including any copies thereof, is to be destroyed according to the following schedule:

1. Immediately upon decision to 'no bid' the solicitation for which the data was received.

2. Within 15 days of being advised your company was not the successful bidder for the solicitation for which the data was requested and received.

3. If the contract awardee, within 15 days of contract completion.

NOTE: The DSCR ANNUAL Certificate of Destruction, DOES NOT IN ANY WAY IMPLY OR PROVIDE AUTHORITY FOR YOUR COMPANY TO RETAIN THE DATA BEYOND THE TIMEFRAMES ESTABLISHED ABOVE. Suspected and actual instances of data retention provided by DSCR beyond these timeframes will be reported to The Boeing Company for remedy. Furthermore, failure to comply with this obligation shall be grounds for your removal from the list of qualified bidders for any other solicitation involving Boeing technical data.

(d) The Government shall have the right to audit supplier's/bidder's/offeror's records to ensure the destruction of Boeing proprietary data.

(e) All suppliers shall comply with MIL-STD-130 for the purpose of distinguishing any spare parts made using Boeing Rights Guard technical data.

The following deviation is applicable to FAR Clause 52.232-25:

Paragraphs (a)(3)(iv) and (v) are deleted and replaced with the following:

(a)(3)(iv) Description, quantity, unit of measure, unit price, and extended price of supplies delivered or services performed. Unit of measure is not required for Electronic commerce (EC/EDI) contract.

(a)(3)(v) Shipping and payment terms (e.g., shipment number and date of shipment, prompt payment discount terms), except for POPS contract. Bill of Lading number and weight

of shipment will be shown for shipments on Government bills of lading.

In addition to the above deviation, the following clarification is added to ensure proper payment of invoice:

(a)(3)(iv) The invoice price shall correspond to the unit of issue price specified in the contract. For example, if 12 each (EA) equals 1 box (BX) and the contract specifies EA, but you sell the item by BX, the invoice must be submitted on an EA price basis.

I199 52.233-1 DISPUTES (JUL 2002)

DSCR NOTE:

DSCR has in place a process to mediate two types of contract disputes: (1) contract claims filed pursuant to the Contract Disputes Act of 1978, as amended, 41 U.S.C. 601-613, (CDA), prior to issuance of a final decision by the contracting officer, that arise as a result of either a contractor or government claim, except for proposed Terminations for Default, and (2) other contract disputes, resulting from an issue in controversy, that the contracting officer determines suitable for mediation. Mediation involves a neutral, called a mediator, who assists both parties as they try to resolve their dispute voluntarily and produce a solution that is acceptable and beneficial to both. After unassisted negotiations over an issue in controversy have proven ineffective in either situation, the contracting officer will contact the contractor seeking to resolve the dispute through mediation. In either situation, a contractor's decision not to engage in mediation shall be conveyed in writing to the contracting officer.

Mediation undertaken pursuant to this process does not waive the statutory time limitations of the CDA, within which a contracting officer must issue a final decision on a claim filed pursuant to the CDA, as expressed in FAR Clause 52.233-1, Disputes, paragraph (e). If mediation is unsuccessful, the parties retain their existing rights under the CDA. (99140)

SECTION K

K2 52.203-2 CERTIFICATE OF INDEPENDENT PRICE DETERMINATION (APR 1985)

(a) The offeror certifies that:

(1) The prices in this offer have been arrived at independently, without, for the purpose of restricting competition, any consultation, communication, or agreement with any other offeror or competitor relating to (i) those prices, (ii) the intention to submit an offer, or (iii) the methods or factors used to calculate prices offered.

(2) The prices in this offer have not been and will not be knowingly disclosed by the offeror, directly or indirectly, to any other offeror or competitor before bid opening (in case of a sealed bid solicitation) or contract award (in the case of a negotiated solicitation) unless otherwise required by law; and

(3) No attempt has been made or will be made by the offeror to induce any other concern to submit or not to submit an offer for the purpose of restricting competition.

(b) Each signature on the offer is considered to be a certification by signatory that the signatory --

(1) Is the person in the offeror's organization responsible for determining the prices being offered in this bid or proposal, and that the signatory has not participated and will not participate in any action contrary to Subparagraphs (a)(1) through (a)(3) above; or

(2)(i) has been authorized, in writing, to act as agent for the following principals in certifying that those principals have not participated, and will not participate in any action contrary to Subparagraphs (a)(1) through (a)(3) above . . .

(Insert below the full name of person(s) in the offeror's organization responsible for determining the prices offered in this bid or proposal, and the title of his or her position in the offeror's organization);

NAME:_____

TITLE:_____

(ii) As an authorized agent, does certify that the principals named in Subdivision (b)(2)(i) above have not participated, and will not participate, in any action contrary to Subparagraphs (a)(1) through (a)(3) above; and

(iii) As an agent, has not personally participated, and will not participate in any action contrary to Subparagraphs (a)(1) through (a)(3) above.

(c) If the offer deletes or modifies Subparagraph (b)(2) above, the offeror must furnish with its offer a signed statement setting forth in detail the circumstances of the disclosure.

K4A 52.203-11 CERTIFICATION AND DISCLOSURE REGARDING PAYMENTS TO INFLUENCE CERTAIN FEDERAL TRANSACTIONS (APR 1991)

(a) The definitions and prohibitions contained in the clause, at FAR 52.203-12, Limitation on Payments to Influence Certain Federal Transactions, included in this solicitation, are hereby incorporated by reference in paragraph (b) of this certification.

(b) The offeror, by signing its offer, hereby certifies to the best of his or her knowledge and belief that on or after December 23, 1989, --

(1) No Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress on his or her behalf in connection with the awarding of any Federal contract, the making of any Federal Grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment or modification of any Federal contract, grant, loan, or cooperative agreement;

(2) If any funds other than Federal appropriated funds (including profit or fee received under a covered Federal transaction) have been paid, or will be paid, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress on his or her behalf in connection with this solicitation, the offeror shall complete and submit, with its offer, OMB standard form LLL, Disclosure of Lobbying Activities, to the Contracting Officer; and

(3) He or she will include the language of this certification in all subcontract awards at any tier and require that all recipients of subcontract awards in excess of $100,000 shall certify and disclose accordingly.

(c) Submission of this certification and disclosure is a prerequisite for making or entering into this contract imposed by section 1352, title 31, United States Code. Any person who makes an expenditure prohibited under this provision or who fails to file or amend the disclosure form to be filed or amended by this provision, shall be subject to a civil penalty of not less than $10,000, and not more than $100,000, for each such failure.

K6 52.207-4 ECONOMIC PURCHASE QUANTITY - SUPPLIES (AUG 1987)

(a) Offerors are invited to state an opinion on whether the quantity(ies) of supplies on which bids, proposals, or quotes are requested in this solicitation is (are) economically advantageous to the Government.

(b) Each offeror who believes that acquisition in different quantities would be more advantageous is invited to recommend an economic purchase quantity. If different quantities are recommended, a total and a unit price must be quoted for applicable items. An economic purchase quantity is that quantity at which a significant price break occurs. If there are significant price breaks at different quantity points, this information is desired as well.

OFFEROR RECOMMENDATIONS

ITEM	QUANTITY	PRICE QUOTATION	TOTAL

(c) The information requested in this provision is being solicited to avoid acquisitions in disadvantageous quantities and to assist the Government in developing a data base for future acquisitions of these items. However, the Government reserves the right to amend or cancel the solicitation and resolicit with respect to any individual item in the event quotations received and the Government's requirements indicate that different quantities should be acquired.

K7A 52.209-5 CERTIFICATION REGARDING DEBARMENT, SUSPENSION, PROPOSED DEBARMENT, AND OTHER RESPONSIBILITY MATTERS (DEC 2001)

L12G 52.211-9009 NON-ACCEPTABILITY OF GOVERNMENT SURPLUS MATERIAL DLAD (APR 2002)

(a) Definition.

'Surplus material,' as used in this clause, means new, unused material that was purchased and accepted by the U.S. Government and subsequently sold by the Defense Reutilization and Marketing Service (DRMS), by contractors authorized by DRMS, or through another Federal Government surplus program. The terms 'surplus' and 'Government surplus' are used interchangeably in this clause.

(b) The Government has determined that offers of surplus material will not be considered for this acquisition.

ramp up (surge) and subsequent production and delivery (sustainment) of supplies to support simultaneous contingencies. The contractor's proposed approach shall be supported by a production capability assessment, as an attachment to the proposal, containing, but not limited to, the following areas:

(1) The contractor's methodology enabling visibility of supplier base resources on a continuing basis.

(2) Identify supplier base inventories, production capability, on-demand manufacturing and advanced technology capabilities, or any other means of support available to meet S&S requirements and, based on this identification, a description of S&S strategies for all items.

(3) Identify 'problem' items for which S&S cannot be easily met, proposed solutions for these items, and any significant investments (dollars or otherwise) needed to implement these solutions, including investments by the Government.

(4) Describe access to, and plans for, coordinating distribution and transportation services for meeting S&S requirements.

(5) The contractor's agreements with suppliers and service providers that reflect access to S&S resources.

(6) Clearly identify any significant investments (dollars or otherwise) required to resolve the problem areas identified under subparagraph (3), or other subparagraphs above, needed to develop S&S capability, including, but not limited to, the following information:

(i) Why the investment is needed;
(ii) what will be purchased with the investment;
(iii) basis for the investment cost;
(iv) the S&S capability to be gained from the investment; and,
(v) for investments needed to affect strategies, an analysis of what strategies were considered and why the proposed strategies are the most cost effective.

(7) If the S&S requirements can be easily met with current levels of production, the following information may be provided in lieu of the detailed assessment requested above:

(i) The contractor's rationale for concluding the required S&S resources are readily available; and,
(ii) the contractor's ability to meet the S&S requirements through access to these resources.
(Note: The commercial nature of an item, in and of itself, is not an adequate rationale for concluding the item is readily available. The information submitted shall include a description of access to, and plans for, coordinating distribution and transportation services for meeting S&S requirements.)

L75B 52.233-9000 AGENCY PROTESTS DLAD (SEP 1999)

Companies protesting this procurement may file a protest

1. with the contracting officer,
2. with the General Accounting Office, or
3. pursuant to Executive Order No. 12979, with the Agency for a decision by the Activity's Chief of the Contracting Office.

Protests filed with the agency should clearly state that they are an 'Agency Level Protests filed under Executive Order No. 12979.' (Note: DLA procedures for Agency Level Protests filed under Executive Order No. 12979 allow for a higher level decision on the initial protest than would occur with a protest to the contracting officer; this process is not an appellate review of a contracting officer's decision on a protest previously filed with the contracting officer). Absent a clear indication of the intent to file an agency level protest, protests will be presumed to be protests to the contracting officer.

DSCR NOTE:

Executive Order 12979 encourages the use of Alternative Dispute Resolution in resolving Agency-level protests. Therefore, DSCR has in place a process to mediate Agency-level protests filed pursuant to Executive Order 12979. Mediation is a voluntary process where the parties meet with a third party neutral (the mediator) to discuss their positions and open a dialogue. The mediator does not make any decisions on the dispute, but rather helps the parties explore their concerns and possible avenues for solutions. Any mediation will occur at DSCR. A trained DSCR mediator who has not had previous personal involvement in the procurement will conduct the mediation. If resolution of the protest is not reached through the mediation process, the protest will be forwarded to the Chief of the Contracting Office for a written decision on the record. If an offeror wishes to file an Agency-level protest, but does not wish to engage in a mediation, the Agency-level protest should state that the protesting party does not wish to participate in a mediation and would like a decision on the written record.

L75BC 52.233-9001 DISPUTES: AGREEMENT TO USE ALTERNATIVE DISPUTE RESOLUTION DLAD (JUN 2001)

(a) The parties agree to negotiate with each other to try to resolve any disputes that may arise. If unassisted negotiations are unsuccessful, the parties will use alternative dispute resolution (ADR) techniques to try to resolve the dispute. Litigation will only be considered as a last resort when ADR is unsuccessful or has been documented by the party rejecting ADR to be inappropriate for resolving the dispute.

(b) Before either party determines ADR inappropriate, that party must discuss the use of ADR with the other party. The documentation rejecting ADR must be signed by an official authorized to bind the contractor (see FAR 52.233-1), or, for the Agency, by the contracting officer, and approved at a level above the contracting officer after consultation with the ADR Specialist and with legal counsel (see DLA Directive 5145.1). Contractor personnel are also encouraged to include the ADR Specialist in their discussions with the contracting officer before determining ADR to be inappropriate.

(c) If you wish to opt out of this clause, check here (____). Alternate wording may be negotiated with the contracting officer.

SECTION M

M3 52.209-9G05 EVALUATION-FIRST ARTICLE APPROVAL DSCR (JAN 1996)

(a) Estimated costs of Government testing will be a factor in evaluation of offers to the extent that such costs are shown below:

ITEM	GOVERNMENT TEST COST
SEE ATTACHMENT 4	

M5 52.213-9001 EVALUATION FACTOR FOR SOURCE INSPECTION DLAD (MAY 1999)

M8 52.214-9002 TRADE DISCOUNTS DLAD (JUN 1983)

M10AA 52.215-9003 SOCIOECONOMIC EVALUATIONS DLAD (OCT 1996)

M10B 52.215-9005 JAVITS-WAGNER-O'DAY ACT ENTITY SUPPORT EVALUATION DLAD (DEC 1997)

M10F 52.215-9G05 AUTOMATED BEST VALUE SYSTEM DSCR (JUL 2002)

(a) The Automated Best Value System (ABVS) Score as an Element of Past Performance Evaluation.

(1) ABVS scores do not determine eligibility for award or technical acceptability. The Government shall use ABVS scores to compare past performance among offerors, not to make determinations of responsibility.

(2) To evaluate each offeror's past performance, DLA will assign an ABVS score to each offeror based on the offeror's past performance. ABVS scores for performance in each Federal Supply Class (FSC score) will be based on DLA consolidated performance history. An offeror may have multiple FSC scores but will have only one DLA score, which is a compilation of the offeror's FSC scores for all business conducted with DLA. These scores will be calculated monthly and remain in effect for a month. The ABVS score is a combination of an offeror's delivery and quality scores. The quality score reflects validated contractor caused product and packaging nonconformances during the rating period. For administrative purposes, the rating period excludes the most recent 30 days. The delivery score reflects all lines shown as delinquent during the rating period. For administrative purposes, the rating period excludes the most recent 60 days. For ABVS purposes, delinquent lines represent shipments not shipped and/or received in their entirety by the contract delivery date. The 30 and 60 day offset periods are NOT grace periods.

(3) Business Systems Modernization.

(i) The Defense Logistics Agency is developing and installing a new suite of commercial business software we call Business Systems Modernization (BSM). BSM will replace the old material management systems with the best of today's business applications. The first phase of BSM that will affect both DLA and our business partners is called the Concept Demonstration. This Concept Demonstration will use actual BSM software, real time data and actual transactions such as solicitations and awards. But because of the new software being tested, certain processes will change during the test and one of the most important is the change in ABVS. The collection of past performance information for certain NSNs in ABVS has been changed by the new software and will be affected by this Concept Demonstration beginning in August 2002.

(ii) Beginning in August 2002, ABVS will not collect performance information on NSNs that are included in this BSM test. The performance data for quality and delivery performance from new contract awards for these NSNs will not be used in the calculation of FSC scores. The contract line items will also not be included in the total number of contract line items on which the FSC score is based. Subsequently, the DLA score, which is a compilation of the FSC scores, will not include performance data from new awards on these NSNs. For NSNs, which are not in the BSM test, ABVS will continue to work as it does today.

(iii) In order to determine if a NSN or FSC is included in this BSM test, go to the BSM Supplier Information Resource Center, http://www.dla.mil/j-6/bsm/SIRC/SIRC.htm. **Awards not included in the ABVS performance data will be identified by contract numbers beginning with SPMXXX or SPEXXX in lieu of SP0XXX (this does not apply to orders issued against non-DLA Basic Ordering Agreements or contracts).**

(iv) This change also means that your ABVS score in BSM will be your DLA score only; the FSC score will not be visible. This initial release will provide an opportunity for DLA, our customers, and our suppliers to use the new technology and processes to improve our supply chain effectiveness. Further information is found at the BSM Vendor Information Center at http://131.70.202.70/j%2D6/bsm/test/vic.htm.

(4) DSCR will make negative quality and delivery data reflected in the ABVS score available to offerors by the 15th day of the month via the ABVS Website. The offeror's negative performance data will be posted before it is reflected in the ABVS score (Preview Period), to give offerors an opportunity to review and verify data. An

CONTINUED ON NEXT PAGE

offeror must challenge any negative data within the Preview Period to assure corrections are posted before calculation of the score. Offerors must submit challenges and substantiating evidence (e.g. invoices, DD Form 250s, modifications) to the ABVS Administrator. The 'Center' field will identify the appropriate focal point. For those identified as 'DSCR,' send challenges to:

Defense Supply Center Richmond
Attn: DSCR-OZP (ABVS)
8000 Jefferson-Davis Highway
Richmond, VA 23297-5516

Telephone (804) 279-6881
FAX (804) 279-5042

(5) Though offerors may challenge negative data at any time, it is to the offeror's advantage to challenge negative data during the Preview Period before it has an opportunity to be reflected in the ABVS score. Accordingly, an offeror should review performance data on a monthly basis at a minimum. When a challenge is received, the ABVS score will be flagged. The flag will remain until the challenge is resolved. If an offer under evaluation involves a challenged score, then the Contracting Officer will consider the nature of the challenged data and its relevance to the acquisition as part of the award decision. The ABVS Administrator will adjust the ABVS score if the Administrator upholds an offeror's challenge. Scores created in the update cycle immediately following the determination will reflect the adjustment.

(6) When there is a discrepancy between the offeror's challenged data and the Government's data, it becomes disputed data. The Government will make every effort to resolve the discrepancy expeditiously. However, the Government is the final authority for resolution of disputed data and its use in the source selection process, and may make an award decision despite the existence of an unresolved challenge.

(b) Using the ABVS score for evaluation.

(1) The contracting officer will first evaluate offers using the FSC score for the solicited FSC in effect at the time offers are evaluated. The contracting officer will use an offeror's DLA score to evaluate an offeror without an FSC score for that particular FSC. The contracting officer may consider the volume of business on which the FSC score is based as a measure of confidence in the score's indication of performance risk. The contracting officer may choose to use the DLA score if he or she lacks confidence in the FSC score. The contracting officer also may use the DLA score if the FSC scores among offerors are relatively equal. An offeror with no performance history will not be evaluated favorably or unfavorably and will be assigned a '999.9' in the ABVS. A '999.9' is used to designate those instances wherein the offeror has no past performance history, has no history for the particular FSC or has no history for the timeframe being rated.

(2) Contractor caused discrepancies or delinquencies will be reflected in the ABVS as an indicator of past performance. Repair, replacement or reimbursement of quality and packaging defects will not provide relief of negative ABVS data. Contractor caused delivery extensions, regardless of consideration paid, will be reflected in the delivery score.

M10G 52.215-9G06 EVALUATION AND AWARD DSCR (FEB 2000)

(a) AWARD. The Government intends to evaluate proposals and, if necessary, conduct discussions with all responsible offerors within the competitive range. The award will be made to the offeror whose proposal conforms to the terms and conditions of the solicitation and represents the best.value to the Government. Therefore, award may be made to other than the lowest priced or the highest technically rated offer.

(b) RELATIVE IMPORTANCE AND TRADE-OFFS. The Government will base the determination of best value on a comparative assessment of the offerors' prices, past performance, and the other evaluation factors identified elsewhere in this solicitation. The determination of best value also considers the relative importance of the evaluation factors. All evaluation factors, when combined, are:

[ ] significantly more important than cost or price. As other evaluation factors become more equal, the evaluated cost or price becomes more important.

[X] approximately equal to cost or price; or

[ ] significantly less important than cost or price. As the evaluated cost/price becomes more equal, relative importance of all other evaluation factors becomes more significant.

The final award decision may involve a trade-off among cost or price and the non-price factors. Factors that may be considered in the trade-off process include, but are not limited to:

Item criticality and weapons system application
Delivery schedule and current inventory status
Historical delivery or quality problems
Concerns over limited supply sources and industrial base
Benefits from obtaining new sources

(c) COST OR PRICE. The Government will evaluate the offered cost or price for cost realism, as defined in FAR 15.401, and reasonableness. The Government will add any other cost or price evaluation factors identified elsewhere in this solicitation (e.g. Buy American Act or FOB Origin transportation costs) to arrive at the offeror's evaluated cost or price. The evaluated cost or price will be used in conjunction with the other non-price factors to determine the best value to the Government.

(d) PAST PERFORMANCE EVALUATION FACTORS. The Government will use the past performance evaluation factors marked below in addition to cost or price and other evaluation factors specified in the solicitation. Unless indicated otherwise, past performance is significantly more important than other non-price factors. Within the past performance subfactors, ABVS scores will be weighed most heavily because of their relevance to DSCR awards. Quality history and delivery schedule compliance will be weighed more heavily than the remaining past performance subfactors. All other non-price evaluation factors specified in this solicitation weigh equally, unless otherwise indicated.

[X] ABVS Score (52.215-9G05)

[X] Javits-Wagner-O'Day (JWOD) (52.215-9005)

[X] Mentoring Business Agreements (MBA) (52.219-9003)

[X] Socioeconomic Support (52.215-9003)

[ ] Other (specify):

(e) PAST PERFORMANCE. Past performance includes, but is not limited to, the offeror's record of conforming to contract requirements and standards of good workmanship; adherence to contract schedules, including the administrative aspects of performance; the offeror's reputation for reasonable and cooperative behavior and commitment to customer satisfaction; and generally, the offeror's business-like concern for the customer's interest.

(i) Offerors may submit with their offer information on past and current Federal (non-DSCR), State and local government and private sector contracts performed by the offeror at the proposed performance location within the last three years that are similar in nature to this acquisition. Offerors electing to submit this data must furnish at least the following information: name and address of the contracting entity; the contract number; award and completion dates; the dollar value; the contract type; the items or services provided; two references, with title and phone number; and any problems encountered and the corrective action taken by the offeror.

(ii) By submitting past performance information, the offeror agrees to permit the Government's representatives to contact the listed references and

CONTINUED ON NEXT PAGE

inquire of the offeror's performance. If more than three contracts are identified, the Government reserves the right to randomly select and limit its review to three contracts. In addition to the information provided, the Government may consider information obtained from other sources when evaluating the offeror's past performance. Offerors will be given the opportunity to discuss negative past performance information obtained from references if the offeror has not had a previous opportunity to comment on that information.

(iii) In addition to the information above, DSCR will use the Automated Best Value System (ABVS) to evaluate quality and past performance on DLA awards (see 52.215-9G05).

(iv) Offerors with no past performance history (whether internal or external to the Federal government) will not be evaluated favorably or unfavorably.

M12 52.216-9G09 EVALUATION - INDEFINITE QUANTITY CONTRACT DSCR (NOV 1996)

Offers will be evaluated on the basis of the estimated annual quantity. If quantity breaks are offered with various prices, the highest price offered will be used for evaluation.

If line items for both stock and DVD are included in the schedule offers will be evaluated based on the total extended price for the stock and DVD line items.

M15 52.217-5 EVALUATION OF OPTIONS (JUL 1990)

M18 52.217-9G11 EVALUATION OF OPTION TO EXTEND THE TERM OF THE CONTRACT - SUPPLIES DSCR (JAN 1996)

The evaluation of options to extend the term of the contract as required by either FAR Clause 52.217-5 (Section M) or 52.212-2 will be based on the highest possible option price offered for each option as specified in DSCR Clause 52.217-9G08 (Section I).

M19CA 52.217-9G27 SURGE & SUSTAINMENT EVALUATION - MINIMUM REQUIREMENT DSCR (JUNE 2001)

(a) Evaluation. The surge & sustainment (S&S) requirement identified in the schedule represents a minimum requirement for award; therefore, offerors that fail to offer for the S&S requirement or submit proposals that are deficient may be rejected. The S&S capability assessment specified in 52.217-9G26 will be evaluated to determine the offeror's ability to meet the increased quantity/accelerated delivery requirements identified in the schedule for S&S.

(b) Acceptable Standard. Acceptable proposals must:

(1) describe a methodology which enables visibility of supplier base resources on a continuing basis;

(2) identify supplier base inventories, production capability, on-demand manufacturing and advanced technology capabilities, or any other means of support available to meet S&S requirements and, based on this identification, provide a description of S&S strategies for all items;

(3) identify problem items for which S&S cannot be easily met, propose solutions for these items, and identify any significant investments (dollars or otherwise) needed to implement these solutions;

(4) describe access to, and plans for, coordinating distribution and transportation services for meeting S&S requirements; and

(5) provide information regarding agreements with subcontractors, suppliers and service provides, if applicable, that reflect access to S&S resources;

(6) identify any significant investment (dollars or otherwise) under (3) or other subparagraphs above, needed to develop S&S capability, with the following information:

(i) An explanation of why the investment is needed.

(ii) A description of what items or materials will need to be purchased with the investment.

(iii) Provide a justification/basis for the investment cost.

(iv) Identify the S&S capability to be gained from the investment.

(v) For investments to effect S&S strategies, an analysis of what strategies were considered and why the proposed strategies are the most cost effective.

(c) Acceptable Standard Commercial. The following standard shall apply in lieu of paragraph (b) for commercial items that are readily available and accessible in sufficient quantities to meet the S&S requirements. Adequate proposals shall:

(1) provide information to support the rationale for concluding that the S&S items are readily available;

(2) describe how access to these resources will provide the ability to meet S&S requirements; and

(3) identify a plan for coordinating distribution and transportation services for meeting S&S requirements

(d) Deficient Proposals. Proposal revisions to correct deficiencies in S&S capability may be addressed during negotiations with offerors determined within the competitive range.

(e) Price. Price(s) associated with S&S items will be evaluated for reasonableness and realism in accordance with proposal analysis techniques specified in FAR 15.404. The total evaluated price associated with a proposal will include S&S prices/costs only to the extent such prices/costs represent:

(1) the dollar amount that must be obligated or reserved at time of award to implement and or maintain the S&S capability and

(2) the dollar amount associated with a confirmed requirement to support an actual contingency.

(f) Materially Unbalanced Offers. The Government may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or subline items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract lines is significantly overstated or understated as indicated by application of cost or price analysis techniques. A proposal may be rejected if the Contracting Officer determines that lack of balance poses an unacceptable risk to the Government.
