The purpose of this solicitation is to provide worldwide support for the National Stock Numbers (NSNs) listed in Attachment 1. The NSNs represent Federal Supply Class 6110, 6115, 5940 and 5975. The applicable NAICS are 335311, 335312, 335931, 335932, and 335999. The NSNs will be evaluated on a NSN-by-NSN basis and awarded to the apparent successful offeror based on a best value determination. Contractors may offer on one NSN or as many NSNs as they have the capability to perform. The contract(s) awarded will be Indefinite Delivery Indefinite Quantity type contract(s). The solicitation contains a two-year base period with three one-year option periods. The NSNs on this solicitation were chosen based on the World Wide Web Industrial Capabilities Assessment Program (WICAP). WICAP uses the Department of Commerce's North American Industrial Classification System (NAICS), which is based on similar manufacturing processes. The NSNs listed in Attachment 1 identify the items to be included in this solicitation.

The contractor shall function as a source of supply for the NSNs on the contract to consistently deliver parts to the DLA Depots. Delivery Orders will be issued to the contractor through the Paperless Ordering Placement System (POPS). The contractor shall interface with DoD Information Systems in an Electronic Commerce/ Electronic Data Interchange (EC/EDI) environment as specified in the section entitled 'System Interface and Integration' below. Manual delivery orders may be issued for these items on an exception basis.

Pricing: The Contractor is to provide pricing for the base period and option periods. Attachment 1 identifies the NSNs, and estimated demands for the base period and option periods. The Contractor is required to provide pricing on this spreadsheet. The Contractor is also encouraged to utilize the electronic (Excel Spreadsheet) version of Attachment 1, for use in the electronic submittal of pricing and for Government ease in the evaluation process. Contractors are encouraged to consider minimum order quantities (MOQ) when setting prices. Contractors are not required to honor delivery orders for quantities less than the MOQ [see Clause I67, 52.216-19]. However, it is important to note that offers will be evaluated based on estimated annual demand quantity (ADQ) [see DSCAP Clause M12, 52.216-9G09]. The quantity estimates provided are based on the best projections available at the time of this solicitation and are subject to change. Some of the NSNs may have an ADQ of zero; however, these NSNs may not necessarily have zero demands. They may, in fact, be items recently assigned to DSCR, or items for which historical data is otherwise incomplete or unavailable, or items for which the Government has no recurring demands and therefore, cannot forecast any realistic estimates. Offerors are encouraged to submit offers consistent with quantities reflected in their own historical data where available.

** Vendors are highly encouraged to submit pricing in an electronic format (spreadsheet) either through e-mail or on a disk to help expedite the evaluation process.

For evaluation purposes, each individual NSN will be evaluated by multiplying the contractor proposed unit price by the estimated ADQ to

arrive at the total estimated price for each NSN. In those cases where the ADQ is zero, the Government will use the MOQ to represent the quantity.

FAR Clause 52.216-22 (I71), Indefinite Quantity: The minimum contract value is defined as the guaranteed monetary value of the aggregate delivery orders issued during the base period only. The minimum contract value does not guarantee delivery orders for any particular item or group of items. The Government does not guarantee a minimum contract value for any subsequent option period.

In the event of a split award, the Government will compute a different guaranteed minimum contract value and maximum contract value for each contract awarded under this solicitation.

The guaranteed minimum contract values will be determined in accordance with the following formula:

10% of the aggregated extended dollar value of the estimated annual demand quantity (ADQ) for the NSNs on contract, computed as follows:

$$0.1 \times ([\text{NSN1 price} \times \text{ADQ}] + [\text{NSN2 price} \times \text{ADQ}] + [\text{NSN3 etc.}])$$

The maximum contract values will be determined in accordance with the following formula:

150% of the aggregated extended dollar value of the estimated annual demand quantity (ADQ) for the NSNs on contract, computed as follows:

$$1.5 \times ([\text{NSN1 price} \times \text{ADQ}] + [\text{NSN2 price} \times \text{ADQ}] + [\text{NSN3 etc.}])$$

Delivery: The contractor shall deliver to the DLA Distribution depot as designated in each individual delivery order. The contractor shall ship ordered items on or before the required contract delivery date specified in each individual delivery order. The required delivery schedule for each NSN is indicated in Attachment 1.

Delivery shall be FOB Destination. The Contractor shall consolidate shipments from the same source to the same destination whenever possible.

Surplus Offers: Surplus offers will not be considered for award as it is unlikely that offerors will be capable of providing surplus material for the life of the contract.

Packaging Requirements: Attachment 2 includes procurement identification descriptions (PID) obtained from the Contract Technical Data File (CTDF). Refer to individual PIDs for specific packaging requirements.

First Article Testing: Items with FAT requirements are identified with an asterisk on Attachment 1.

FAR Clause 52.246-11 (E5) HIGHER LEVEL CONTRACT QUALITY REQUIREMENT applies to the following NSNs:

I199 52.233-1 DISPUTES (JUL 2002)
 DSCR NOTE:
 DSCR has in place a process to mediate two types of contract disputes: (1) contract claims filed pursuant to the Contract Disputes Act of 1978, as amended, 41 U.S.C. 601-613, (CDA), prior to issuance of a final decision by the contracting officer, that arise as a result of either a contractor or government claim, except for proposed Terminations for Default, and (2) other contract disputes, resulting from an issue in controversy, that the contracting officer determines suitable for mediation. Mediation involves a neutral, called a mediator, who assists both parties as they try to resolve their dispute voluntarily and produce a solution that is acceptable and beneficial to both. After unassisted negotiations over an issue in controversy have proven ineffective in either situation, the contracting officer will contact the contractor seeking to resolve the dispute through mediation. In either situation, a contractor's decision not to engage in mediation shall be conveyed in writing to the contracting officer.
 Mediation undertaken pursuant to this process does not waive the statutory time limitations of the CDA, within which a contracting officer must issue a final decision on a claim filed pursuant to the CDA, as expressed in FAR Clause 52.233-1, Disputes, paragraph (e). If mediation is unsuccessful, the parties retain their existing rights under the CDA. (99140)

DSCR NOTES FOR FAR CLAUSE 52.215-1

In accordance with paragraph (b), the offeror hereby acknowledges receipt of solicitation amendment(s) by listing the amendment number and date below.

Protests filed with the agency should clearly state that they are an 'Agency Level Protests filed under Executive Order No. 12979.' (Note: DLA procedures for Agency Level Protests filed under Executive Order No. 12979 allow for a higher level decision on the initial protest than would occur with a protest to the contracting officer; this process is not an appellate review of a contracting officer's decision on a protest previously filed with the contracting officer). Absent a clear indication of the intent to file an agency level protest, protests will be presumed to be protests to the contracting officer.

Table with 4 columns: AMENDMENT NO., DATE, AMENDMENT NO., DATE. Contains empty rows for data entry.

DSCR NOTE:

Executive Order 12979 encourages the use of Alternative Dispute Resolution in resolving Agency-level protests. Therefore, DSCR has in place a process to mediate Agency-level protests filed pursuant to Executive Order 12979. Mediation is a voluntary process where the parties meet with a third party neutral (the mediator) to discuss their positions and open a dialogue. The mediator does not make any decisions on the dispute, but rather helps the parties explore their concerns and possible avenues for solutions. Any mediation will occur at DSCR. A trained DSCR mediator who has not had previous personal involvement in the procurement will conduct the mediation. If resolution of the protest is not reached through the mediation process, the protest will be forwarded to the Chief of the Contracting Office for a written decision on the record. If an offeror wishes to file an Agency-level protest, but does not wish to engage in a mediation, the Agency-level protest should state that the protesting party does not wish to participate in a mediation and would like a decision on the written record.

Contractors are reminded of the requirements of paragraph (c)(1). The Government will automatically reject and will not consider any submission marked or that appears to be only a quote, whether submitted electronically or in paper media.

L75BC 52.233-9001 DISPUTES: AGREEMENT TO USE ALTERNATIVE DISPUTE RESOLUTION DLAD (JUN 2001)

(a) The parties agree to negotiate with each other to try to resolve any disputes that may arise. If unassisted negotiations are unsuccessful, the parties will use alternative dispute resolution (ADR) techniques to try to resolve the dispute. Litigation will only be considered as a last resort when ADR is unsuccessful or has been documented by the party rejecting ADR to be inappropriate for resolving the dispute.

(b) Before either party determines ADR inappropriate, that party must discuss the use of ADR with the other party. The documentation rejecting ADR must be signed by an official authorized to bind the contractor (see FAR 52.233-1), or, for the Agency, by the contracting officer, and approved at a level above the contracting officer after consultation with the ADR Specialist and with legal counsel (see DLA Directive 5145.1). Contractor personnel are also encouraged to include the ADR Specialist in their discussions with the contracting officer before determining ADR to be inappropriate.

(c) If you wish to opt out of this clause, check here (). Alternate wording may be negotiated with the contracting officer.

SECTION M

M8 52.214-9002 TRADE DISCOUNTS DLAD (JUN 1983)

M10F 52.215-9G05 AUTOMATED BEST VALUE SYSTEM DSCR (JUL 2002)

(a) The Automated Best Value System (ABVS) Score as an Element of Past Performance Evaluation.

(1) ABVS scores do not determine eligibility for award or technical acceptability. The Government shall use ABVS scores to compare past performance among offerors, not to make determinations of responsibility.

(2) To evaluate each offeror's past performance, DLA will assign an ABVS score to each offeror based on the offeror's past performance. ABVS scores for performance in each Federal Supply Class (FSC score) will be based on DLA consolidated performance history. An offeror may have multiple FSC scores but will have only one DLA score, which is a compilation of the offeror's FSC scores for all business conducted with DLA. These scores will be calculated monthly and remain in effect for a month. The ABVS score is a combination of an offeror's delivery and quality scores. The quality score reflects validated contractor caused product and packaging nonconformances during the rating period. For administrative purposes, the rating period excludes the most recent 30 days. The delivery score reflects all lines shown as delinquent during the rating period. For administrative purposes, the rating period excludes the most recent 60 days. For ABVS purposes, delinquent lines represent shipments not shipped and/or received in their entirety by the contract delivery date. The 30 and 60 day offset periods are NOT grace periods.

(3) Business Systems Modernization.

(i) The Defense Logistics Agency is developing and installing a new suite of commercial business software we call Business Systems Modernization (BSM). BSM will replace the old material management systems with the best of today's business applications. The first phase of BSM that will affect both DLA and our business partners is called the Concept Demonstration. This Concept Demonstration will use actual BSM software, real time data and actual transactions such as solicitations and awards. But because of the new software being tested, certain processes will change during the test and one of the most important is the change in ABVS. The collection of past performance information for certain NSNs in ABVS has been changed by the new software and will be affected by this Concept Demonstration beginning in August 2002.

(ii) Beginning in August 2002, ABVS will not collect performance information on NSNs that are included in this BSM test. The performance data for quality and delivery performance from new contract awards for these NSNs will not be used in the calculation of FSC scores. The contract line items will also not be included in the total number of contract line items on which the FSC score is based. Subsequently, the DLA score, which is a compilation of the FSC scores, will not include performance data from new awards on these NSNs. For NSNs, which are not in the BSM test, ABVS will continue to work as it does today.

(iii) In order to determine if a NSN or FSC is included in this BSM test, go to the BSM Supplier Information Resource Center, <http://www.dla.mil/j-6/bsm/SIRC/SIRC.htm>. Awards not included in the ABVS performance data will be identified by contract numbers beginning with SPMXXX or SPEXXX in lieu of SPOXXX (this does not apply to orders issued against non-DLA Basic Ordering Agreements or contracts).

(iv) This change also means that your ABVS score in BSM will be your DLA score only; the FSC score will not be visible. This initial release will provide an opportunity for DLA, our customers, and our suppliers to use the new technology and processes to improve our supply chain effectiveness. Further information is found at the BSM Vendor Information Center at <http://131.70.202.70/j%2D6/bsm/test/vic.htm>.

(4) DSCR will make negative quality and delivery data reflected in the ABVS score available to offerors by the 15th day of the month via the ABVS Website. The offeror's negative performance data will be posted before

it is reflected in the ABVS score (Preview Period), to give offerors an opportunity to review and verify data. An offeror must challenge any negative data within the Preview Period to assure corrections are posted before calculation of the score. Offerors must submit challenges and substantiating evidence (e.g. invoices, DD Form 250s, modifications) to the ABVS Administrator. The 'Center' field will identify the appropriate focal point. For those identified as 'DSCR,' send challenges to:

(5) Though offerors may challenge negative data at any time, it is to the offeror's advantage to challenge negative data during the Preview Period before it has an opportunity to be reflected in the ABVS score. Accordingly, an offeror should review performance data on a monthly basis at a minimum. When a challenge is received, the ABVS score will be flagged. The flag will remain until the challenge is resolved. If an offer under evaluation involves a challenged score, then the Contracting Officer will consider the nature of the challenged data and its relevance to the acquisition as part of the award decision. The ABVS Administrator will adjust the ABVS score if the Administrator upholds an offeror's challenge. Scores created in the update cycle immediately following the determination will reflect the adjustment.

(6) When there is a discrepancy between the offeror's challenged data and the Government's data, it becomes disputed data. The Government will make every effort to resolve the discrepancy expeditiously. However, the Government is the final authority for resolution of disputed data and its use in the source selection process, and may make an award decision despite the existence of an unresolved challenge.

(b) Using the ABVS score for evaluation.

(1) The contracting officer will first evaluate offers using the FSC score for the solicited FSC in effect at the time offers are evaluated. The contracting officer will use an offeror's DLA score to evaluate an offeror without an FSC score for that particular FSC. The contracting officer may consider the volume of business on which the FSC score is based as a measure of confidence in the score's indication of performance risk. The contracting officer may choose to use the DLA score if he or she lacks confidence in the FSC score. The contracting officer also may use the DLA score if the FSC scores among offerors are relatively equal. An offeror with no performance history will not be evaluated favorably or unfavorably and will be assigned a '999.9' in the ABVS. A '999.9' is used to designate those instances wherein the offeror has no past performance history, has no history for the particular FSC or has no history for the timeframe being rated.

(2) Contractor caused discrepancies or delinquencies will be reflected in the ABVS as an indicator of past performance. Repair, replacement or reimbursement of quality and packaging defects will not provide relief of negative ABVS data. Contractor caused delivery extensions, regardless of consideration paid, will be reflected in the delivery score.

M10G 52.215-9G06 EVALUATION AND AWARD
DSCR (FEB 2000)

(a) AWARD. The Government intends to evaluate proposals and, if necessary, conduct discussions with all responsible offerors within the competitive range. The award will be made to the offeror whose proposal conforms to the terms and conditions of the solicitation and represents the best value to the Government. Therefore, award may be made to other than the lowest priced or the highest technically rated offer.

(b) RELATIVE IMPORTANCE AND TRADE-OFFS. The Government will base the determination of best value on a comparative assessment of the offerors' prices, past performance, and the other evaluation factors identified elsewhere in this solicitation. The determination of best value also considers the relative importance of the evaluation factors. All evaluation factors, when

combined, are:

- significantly more important than cost or price. As other evaluation factors become more equal, the evaluated cost or price becomes more important.
- approximately equal to cost or price; or
- significantly less important than cost or price. As the evaluated cost/price becomes more equal, relative importance of all other evaluation factors becomes more significant.

The final award decision may involve a trade-off among cost or price and the non-price factors. Factors that may be considered in the trade-off process include, but are not limited to:

Item criticality and weapons system application
Delivery schedule and current inventory status
Historical delivery or quality problems
Concerns over limited supply sources and industrial base
Benefits from obtaining new sources

(c) COST OR PRICE. The Government will evaluate the offered cost or price for cost realism, as defined in FAR 15.401, and reasonableness. The Government will add any other cost or price evaluation factors identified elsewhere in this solicitation (e.g. Buy American Act or FOB Origin transportation costs) to arrive at the offeror's evaluated cost or price. The evaluated cost or price will be used in conjunction with the other non-price factors to determine the best value to the Government.

(d) PAST PERFORMANCE EVALUATION FACTORS. The Government will use the past performance evaluation factors marked below in addition to cost or price and other evaluation factors specified in the solicitation. Unless indicated otherwise, past performance is significantly more important than other non-price factors. Within the past performance subfactors, ABVS scores will be weighed most heavily because of their relevance to DSCR awards. Quality history and delivery schedule compliance will be weighed more heavily than the remaining past performance subfactors. All other non-price evaluation factors specified in this solicitation weigh equally, unless otherwise indicated.

(e) PAST PERFORMANCE. Past performance includes, but is not limited to, the offeror's record of conforming to contract requirements and standards of good workmanship; adherence to contract schedules, including the administrative aspects of performance; the offeror's reputation for reasonable and cooperative behavior and commitment to customer satisfaction; and generally, the offeror's business-like concern for the customer's interest.

(i) Offerors may submit with their offer information on past and current Federal (non-DSCR), State and local government and private sector contracts performed by the offeror at the proposed performance location within the last three years that are similar in nature to this acquisition. Offerors electing to submit this data must furnish at least the following information: name and address of the contracting entity; the contract number; award and completion dates; the dollar value; the contract type; the items or services provided; two references, with title and phone number; and any problems encountered and the corrective action taken by the offeror.

the offeror agrees to permit the Government's representatives to contact the listed references and inquire of the offeror's performance. If more than three contracts are identified, the Government reserves the right to randomly select and limit its review to three contracts. In addition to the information provided, the Government may consider information obtained from other sources when evaluating the offeror's past performance. Offerors will be given the opportunity to discuss negative past performance information obtained from references if the offeror has not had a previous opportunity to comment on that information.

(iii) In addition to the information above, DSCR will use the Automated Best Value System (ABVS) to evaluate quality and past performance on DLA awards (see 52.215-9G05).

(iv) Offerors with no past performance history (whether internal or external to the Federal government) will not be evaluated favorably or unfavorably.
