**IMPORTANT** - Award will be made on this Form, or on Standard Form 26, or by other authorized official written notice.

1. The purpose of this effort is to provide worldwide support for various F404 Engine, National Stock Numbers (NSNs).

NSNs identified to this solicitation are listed at Attachment 1. Offerors may propose on all or as many NSN's as possible. While it is not foreseen that one offeror will propose on all NSNs, offers will be evaluated on the basis of advantages and disadvantages to the Government that might result from making numerous awards. For the purpose of evaluating offers, it is assumed that \$500.00 would be the administrative cost to the Government of issuing and administering each contract awarded under this solicitation. Individual awards will be evaluated on the basis on the items or combination of items that result in the lowest aggregate cost to the Government, including the assumed administrative cost.

This is an Indefinite Delivery, Indefinite Quantity (IDIQ) Contract. This contract includes a 2 year base period and two 2-year option for a potential 6 year contract. The government reserves the right to break out any of the NSNs on an individual basis if determined to be in the best interest of the Government.

Any exceptions to this solicitation must be provided as a separate attachment to this solicitation.

This solicitation includes the following attachments:

Attachment 1 - NSN Listing/Pricing

Attachment 2 - Surge and Sustainment

Attachment 3 - Quality Matrix

Attachment 4 - Procurement Item Description (PID) - This attachment may be downloaded from the Defense Supply Center Richmond (DSCR) website:

[http://www.dscr.dla.mil/proc/VPV\\_vpvhome.ht](http://www.dscr.dla.mil/proc/VPV_vpvhome.ht).

2. PRICING: The contractor is to provide pricing for the base period and all option periods. Attachment 1 also identifies the NSNs, unit of issue, minimum order quantity (MOQ), and the estimated demand quantities for the base period and each option period. (NOTE: Estimated demand quantities are estimated amounts for administrative purposes only.) All estimated demand quantities provided are based on the best projection available at the time of this solicitation and are subject to change. It is important to note that those NSNs with estimated demands of zero, DO NOT necessarily have zero demand. They may be items recently assigned to DSCR, items which historical data is otherwise incomplete or unavailable, or items for which the Government has no recurring demands and therefore cannot forecast a realistic estimate. For those items having a demand in the base period and/or option period of 0, pricing shall be based on the minimum ordering quantity (MOQ). Contractor is to provide economic price quantities for all NSNs as well as any minimum ordering criteria. Prices shall be for FOB Origin. If adequate competition does not exist, the Government reserves the right to request cost or pricing data. Contractor pricing is to be provided on the Attachment 1 spreadsheet and the contractor is required to submit pricing proposal electronically in an Excel spreadsheet format along with the hardcopy.

3. TRANSPORTATION: FOB is origin. Exception to FOB must be noted and be on an all or none basis for the NSN's the offeror is proposing. The contractor shall consolidate shipments from the same source to the same destination whenever possible without delay in the established delivery date unless otherwise pre-approved.

4. DELIVERY shall be to Defense Logistic Agency (DLA) distribution depots as designated on each DO. The contractor shall ship ordered items on or before the required contract delivery date specified in the DO. The required delivery date for each NSN is indicated in Attachment 1. Delivery Orders (DO) will be issued to the contractor through the Paperless Ordering Placement System (POPs). Manual delivery orders may be issued on an exception basis. The contractor shall interface with DoD Information Systems in an Electronic Commerce/Electronic Data Interchange (EC/EDI) environment in accordance with Clause (C3) 52.211-9G33 (POPs-Computer Compatibility

5. SURGE AND SUSTAINMENT: Surge and Sustainment NSNs are identified in Attachment 2. Surge and Sustainment requirements are outlined in clauses 52.217-9G25 (I92K), 52.217-9006 (I89F), Provision 52.217-9G26 (L59DA) and 52,217-9G27 (M19CA). The attachment identifies the individual quantity requirements for each month as well as the total six-month requirement per NSN. 'Surge Support' is one of the evaluation factors; therefore offerors are required to comply with the specific clauses/provisions.

CLIN 6000 - Surge and Sustainment Requirement. NOTICE TO OFFERORS: Clin 6000 is the surge quantity that may be ordered by the Government in a military contingency. The Government is not obligated to order any of the surge quantities and the contractor should not ship such quantities without receipt of an order clearly designated for surge quantities. The offeror must specify the percentage of price increase for surge quantities or state 'none'. If the offeror fails to do so, the offeror will be evaluated with no additional charge for surge quantities.

Surge Support Plus \_\_\_\_\_ %

CLIN 6001 - Capability Assessment: Cost, if any, that the contractor would incur in complying with the requirement to conduct a surge validation plan. If none, state 'none'. Reference Clause 52.217-9G25 (I92K) and Provision 52.217-9G26 (L59DA).  
\$ \_\_\_\_\_.

CLIN 6002 - Investment Costs: Investment costs, if any, to execute the surge plan otherwise state 'none'. Reference Clauses 52.217-9006 (I89F) and Provision 52.217-9G26 (L59DA).  
\$ \_\_\_\_\_.

6. QUALITY: The contractor shall establish, implement, document and maintain a quality system that ensures conformance to all contractual requirements and meets the requirements of ISO 9001:2000. However, the contractor may propose an equivalent quality system model. The requirements of ISO 9001:2000 shall govern the requirements for quality. If the contractor chooses to propose an equivalent quality model, the

clause in Sections E5 - 52.246-11 - Higher Level Quality Requirements must be completed.

Applicable Quality Assurance Provisions (QAPs) are 001, 007, B02, E01, E02, E03, E04, and E06. Attachment 3 identifies the QAP pertaining to each NSN.

7. TECHNICAL DATA PACKAGES: Items shall be manufactured in accordance with Government technical data packages and drawings. The contractor may obtain technical data packages using the following website:  
[http://www.dscr.dla.mil/tdmd/mb\\_index.asp](http://www.dscr.dla.mil/tdmd/mb_index.asp). Contractors must have a membership number to access technical data. Contractors must follow the instructions provided on the website to obtain a membership number and technical data.

The Contractor is responsible for notifying the Government if the drawings or technical data is different from the information cited in the Acquisition Item Description (AID). Attachment 4 includes item descriptions obtained from the Contract Technical Data File (CTDF). Contractors will be given read only access to several files in CTDF via the Standard Automated Material Management System (SAMMS) after award of the contract.

8. FIRST ARTICLE: NSNs with First Article requirements are identified in Attachment 1. First Article requirements are outlined in notice 9-3Alt (B10), 9-5 (B12), clauses 52.209-3 (I28), 52.209-4 (I29), Provision 52.209-9G03 (L6), 52.209-9G04 (L7) and 52.209-9G05 (M3).

Clause 52.209-3 (I28) and 52.209-9G03 (L6) apply to NSNs:  
2840-01-131-8636, 2840-01-140-3532 and 2840-01-152-9937

Clause 52.209-4 (I30), 52.209-9G04, 52.209-9G05 (M3) apply to NSN:  
2840-01-131-4526 and 2840-01-260-9193

NSNs 2840-01-131-4526 and 2840-01-260-9193 require CDRL's. The contractor may obtain CDRL information using the website at  
<http://www.dscr.dla.mil/qap/CDRLs.htm>

Clause 52.209-4 (I30) \* applies to NSN2840-01-260-9193. \*\* applies to 2840-01-131-4526.

Additional charges for first article test should be submitted in Attachment 1, as a separate line item and reference.

CLIN 9906 - First Article Test (Government)

CLIN 9907 - First Article Test Report (Contractor)

9. \* Clause fill-ins:

E14 52.246-9G16 - Inspection/Acceptance will be at original for all items EXCEPT NSN2840-01-135-8783, 5342-01-224-1877, and 6150-01-379-4634 in which Inspection/Acceptance will take place at destination.

F16 52.211-9G50 - See Attachment 1, Required Delivery Days

I67 52.216-19 - (a) Minimum order is as specified in Attachment #1.  
(b) Maximum orders :

- (b)(1). Any order for a single item in excess of 250% of the MOQ.  
 (b)(2). Any order for a combination of items in excess of 50% of the estimated contract amount for that period or the amount in para (b) (1) herein, whichever is greater  
 (b)(3). A series of orders from the same ordering office within 15 days that together call for quantities exceeding the limitation in subparagraph (1) or (2) above.

I67A, 52.216-19 - FAR clause 52.216-19, above provides for a minimum delivery order quantity (see Attachment 1). Notwithstanding such minimum order amount, the minimum order quantity per delivery order shall be not less than the Quantity Unit Pack (QUP) quantity (manufacturer's standard pack for items without an identified QUP) and all orders will be in multiples of the QUP.

I71, 52.216-22, Indefinite Quantity: The minimum contract value is defined as the guaranteed monetary value of the aggregate orders issued during the base period only. The minimum will not guarantee orders for any particular item or group of items. The Government will not guarantee a minimum for the option periods. The Government will compute a different minimum for each contract awarded under this solicitation in accordance with the following formula:

10% of the aggregate extended dollar value of the minimum order quantity (MOQ) for the NSNs, computed as follows:

$0.1 \times ([NSN1 \text{ price} \times \text{MOQ}] + [NSN2 \text{ price} \times \text{MOQ}] + \text{etc}).$

The maximum contract value is defines as:

150% of the aggregate extended dollar value of the estimated value for the base period or each option period.

(d) estimated delivery.

L75 52.233-2(a) - Delete DSCR-J and replace with DSCR-KDD.

Clause E6, 52.246-15, Certificate of Conformance does not apply to NSNs:

2840-01-131-4526	2840-01-131-8636	2840-01-140-3532
2840-01-152-9937	2840-01-260-9193.	

Clause E8, 52.246-9001, Manufacturing Process Controls and In-Process Inspections Does not apply to NSNs:

1560-01-362-0204	2915-01-129-3816	2925-01-180-7791
3110-01-158-1703	3110-01-166-5224	3120-01-144-3962
3120-01-144-3963	3120-01-144-3964	3120-01-164-6282
5342-01-142-8821	5342-01-224-1877	5342-01-352-6413
5365-01-139-7203	6150-01-379-4634	

10. System Interface and Integration: In accordance with Clause 52.211.9G33 - POPS Computer Compatibility, the Contractor shall establish interface capability with DLA's Standard Automated Material Management System (SAMMS) and Defense Automated Addressing System (DAAS). These interfaces will be for purposes of sending and receiving EC-EDI transmissions, electronic invoices and/or receipt transactions processing, and establishing two-way communication for logistics and management information. The Contractor shall ensure adequate systems interfaces are used to integrate commercial systems with Government systems for the entire logistics trail.

The following three EDI transactions are required for the purposes of transmitting the Delivery Orders (DOs) and tracking performance:

- 850 - Purchase/Delivery Order
- 856 - Shipment Notice Manifest
- 997 - Functional Acknowledgement

The Purchase/Delivery Order (850) will be processed through Defense Supply Center Richmond. The Functional Acknowledgement (997) will verify the contractor has received the delivery order and will establish the order issue date. The Shipment Notice (856) will identify the order shipment date of the total quantity. The functional acknowledgement and shipment notice will be used to track delivery performance. DSCR will utilize the Enterprise Linked Logistics Information Source (ELLIS), a performance tracking program, to measure contractor's performance.

## SECTION B

## 11. Special Tooling – Clause 52.245-17

If special tooling is required or if Attachment 3 Quality Matrix indicates Government Tooling is available, the Contractor should provide a list of tooling required with their proposal. The Government will review requests to determine if tooling is currently available. If the Government determines tooling is unavailable, the Contractor may be asked to provide a price to manufacture the tooling.

12. Evaluation: Each NSN will be awarded to the offeror whose price and established past performance, as measured by Automated Best Value System (ABVS), represent the best value to the Government. For all items, the evaluation of cost/price and past performance will be approximately equal.

13. Cost/Price Proposal: The Government will evaluate the Offeror's prices for the NSNs list in Attachment 1 to determine if the prices are fair and reasonable. Price reasonableness is a judgment of the proposal price as compared to competitive prices received, current market conditions, Independent Government Cost Estimated (IGCE), historical prices, certified cost and pricing data or information other than certified cost and pricing data, the application of the appropriate industry indices, value analysis and/or other relevant measures. The Government may utilize any one or a combination of these techniques to ensure that prices are determined fair and reasonable. The Government may also evaluate price proposal for material imbalances prices.

C3 52.211-9G33 POPS - COMPUTER COMPATIBILITY DSCR (MAR 2001)

SECTION B

B10 9-3 ALT REQUIREMENT FOR HOLDING FIRST ARTICLE: DSCR (JAN 1996)

(a) In support of the Paperless Ordering Placement System (POPS), the awardee will be required to have a compatible computer system capable of accepting our offers and processing Electronic Data Interchange (EDI) transactions. The American National Standards Institute's (ANSI) X12 Standard will be utilized for formatting the EDI transactions. The EDI system must be available for on line processing not later than 30 days after date of award.

B12 9-5 FIRST ARTICLE DELIVERY UNDER INDEFINITE DELIVERY CONTRACTS DSCR (MAR 1999)

(b) The computer system must also be Year 2000 (Y2K) Compliant. Year 2000 compliant, used with respect to technology, means that the information technology accurately processes date/time data (including, but not limited to, calculating, comparing, and sequencing) from, into, and between the twentieth and twenty-first centuries, and the years 1999 and 2000 and leap year calculations, to the extent that other information technology, used in combination with the information technology being acquired, properly exchanges date/time data with it.

B21B 11-9 POPS - PRODUCT INFORMATION: DSCR (JAN 1996)

Offerors are required to provide the following information regarding the items offered:

(c) The following ANSI X12 transaction sets are currently sent, received, and processed by the Defense Supply Center Richmond:

- MANUFACTURER'S NAME
PART NUMBER/CATALOG NUMBER

- 850 Purchase/Delivery Order Transaction Set
856 Ship Notice/Manifest Transaction Set

Offerors shall write/type this information on the schedule of items below each item description unless such information has already been identified in the item description.

B24A 14-1 FACSIMILE BIDS/PROPOSALS DSCR (MAR 1999)

(d) Awardee must be capable of sending, receiving, and processing the above ANSI X12 transaction sets and have an electronic mailbox on a DAASC certified Value Added Network (VAN). For 856 Ship Notice/Manifest Transaction Sets, the awardee will have the option of using the Web-856 application, if it becomes available.

(a) Facsimile bids/proposals, amendments (including final proposal revisions (FPRs)), and withdrawals will not be considered unless authorized in the solicitation by either Provision 52.214-31, Facsimile Bids, or 52.215-5, Facsimile Proposals (Sec L). IF NEITHER PROVISION IS IN THE SOLICITATION, FACSIMILE TRANSMITTED DATA AS DESCRIBED ABOVE SHALL BE REJECTED.

(e) Information regarding EDI, ANSI X12 transactions, and DAASC approved VANs can be obtained from the DAAS web site by going to www.daas.dla.mil, then select SYSTEMS & SERVICES, next select EC/EDI, and lastly select DAASC's VAN LIST.

(b) In solicitations that do contain either Provision 52.214-31 or 52.215-5, bidders/offerors are notified that for bid/proposal security reasons the FACSIMILE EQUIPMENT AS IDENTIFIED IN THE PROVISION IS NOT LOCATED AT THE PLACE DESIGNATED FOR RECEIPT OF BIDS/OFFERS. REGULAR INTEROFFICE MAIL PICK-UP OF FACSIMILE TRANSMISSIONS OCCURS AT 10:30 A.M. AND 1:30 P.M. DAILY.

(f) Specifics of the POPS System can be obtained from:
Defense Supply Center, Richmond
Directorate of Planning and Resource Management
Systems and Procedures Division

the requirements of paragraph 5.1.6.2., Markings of ASTM D3951, markings on exterior shipping containers will contain as a minimum the NSN, requisition number, and the contract delivery order number. These markings are to be applied through stenciling or other means, directly to the exterior shipping container or included in the body of the invoice/shipping document which will be permanently affixed to the exterior shipping container. Regardless of method used, all markings must be visible to receiving personnel. When the total number of containers going to the same destination exceeds either 250 pounds (excluding pallet) or a volume of 20 cubic feet, then palletization is required except for 55 gallon drums.

NOTICE FOR SHIPMENT TO DLA STOCK LOCATIONS: Shipments to DLA stock locations must be marked in accordance with MIL-STD-129N dated 15 May 97 and AIM BC 1 with the following exception: Marking, including barcoding, and fragile marking (if required), must be on the outside container and all intermediary containers down to the specified QUP. DSCR Clause 52.211-9G22 (Sec F) applies.

**D4K 52.211-9G73 PACKAGING AND MARKING REQUIREMENTS (JUL 2002) DSCR**

(a) Unless stated otherwise, commercial packaging in accordance with ASTM-D-3951 is required for CONUS shipments from the contractor directly to the customer. Commercial packaging and marking is not sufficient for vendor shipments requiring movement through the Defense Transportation System (also referred to as the Military Distribution System or DLA Depot) as the shipment could ultimately be moved via Military Air.

(b) Higher level packaging in accordance with MIL-STD-2073 is mandatory for all shipments that meet the below criteria:

Movement through the Defense Transportation System including shipments to a Military Distribution facility or depot.

OCONUS shipments  
FMS shipments  
Hazardous material, as cited in the AID or in the Quality Requirements Matrix.

(c) Materials not considered as HAZMAT for CONUS or OCONUS commercial air shipments may be considered HAZMAT for MILAIR shipments OCONUS. As such, contractors/shippers shall ensure that material meeting HAZMAT definitions in DLAI 4145.3, Preparing Hazardous Materials for Military Air Shipment, is packaged in accordance with that instruction when the consignee is OCONUS and the shipment will be moved through the Defense Transportation System. DLAI 4145.3 is available on the internet at:  
[www.dsccl.dla.mil/downloads/packaging/dlai4145\\_3.pdf](http://www.dsccl.dla.mil/downloads/packaging/dlai4145_3.pdf).

(d) All items shall be marked in accordance with MIL-STD-129. Hazardous items and shelf life items, as cited in the AID or in the Quality Requirements Matrix, shall be marked in accordance with MIL-STD-129 and the appropriate clauses cited in the appendix to the matrix and the contract. The contractor is required to package material in accordance with Quantity Unit Pack (QUP), specified in MIL-STD-2073 and the Unit of Issue (UI), specified in each delivery order. A packing slip shall be located in a plastic pouch on the outside of the package. For HAZMAT destined OCONUS, a hard copy of the Material Safety Data Sheet (MSDS) must also be included.

(e) In the event of deployments, this clause may be invoked when shipments originally destined for a CONUS location are diverted to OCONUS destinations thereby necessitating movement of the material through the Defense Transportation System. In such an event, contractors will be notified by the Contracting Officer and an equitable adjustment will be made in the contract price as deemed appropriate.

NOTE: Applicable to negotiated solicitations. Offers that do not comply with the packaging and marking requirements as specified in Section D of this solicitation may be subject to rejection as being technically unacceptable.

**SECTION E**

**E3 52.246-2 INSPECTION OF SUPPLIES - FIXED PRICE (AUG 1996)**

**E5 52.246-11 HIGHER-LEVEL CONTRACT QUALITY REQUIREMENT (FEB 1999)**

The Contractor shall comply with the applicable higher-level contract quality requirement cited below, which is hereby incorporated into this contract:

ISO 9001 or ANSI/ASQC Q9001 when Quality Assurance Provision (QAP) 005, 006, 159, 189, 216, 222, V02, or V03 is included.

ISO 9002 or ANSI/ASQC Q9002 for any other QAPs.

DSCR NOTE to 52.246-11:

The higher-level standards referenced above shall apply unless the contractor indicates the proposal is based on a contractor's preferred quality system as identified below:

- Other recognized industry standard(s) (but non-ISO/ANSI/ASQC) that is equivalent to or better than applicable ISO/ANSI/ASQC standard indicated above.  
Specify \_\_\_\_\_
- Other process control system that is equivalent to or better than the applicable ISO/ANSI/ASQC standard indicated above which has not previously been determined to be insufficient for the Government's purpose. This may include previously recognized MIL-I-45208 or MIL-Q-9858 systems which have been augmented to be equivalent to ISO 9002 or ISO 9001 respectively.
- An existing system modeled after
  - MIL-I-45208 or
  - MIL-Q-9858
 and not previously determined insufficient for the Government's purpose.  
THIS OPTION IS PERMITTED ONLY AS AN INTERIM MEASURE TO ALLOW CONTRACTORS TO TRANSITION TO ISO/ANSI/ASQC STANDARDS.

Third party certification/registration is not required nor will it be considered a substitute for the Government's right to audit/validate a contractor's quality system. ISO 9001 can be accepted for ISO 9002 requirements, however, the reverse does not apply.

MIL-STD-105 has been replaced by ANSI/ASQC Z1.4-1993, Sampling Procedure and Tables for Inspection by Attributes.

MIL-STD-45662A has been replaced by either ISO 10012-1, Quality Assurance Requirements for Measuring Equipment or ANSI/NCSL Z540-1, General Requirements for Calibration Laboratories and Measuring Equipment and Test Equipment.

(Previous versions of this clause are considered obsolete.)

DSCR NOTE: For electronic quotes, if the information requested by this clause cannot be submitted with your offer, it must be submitted off-line to the contracting officer prior to the solicitation closing date.

Awards citing origin inspection that authorize the furnishing of surplus material will contain a Quality Assurance Provision (QAP) S01 in lieu of the QAP (if any) specified in this solicitation.

A copy of surplus QAP S01 is available on the DSCR Master Solicitation, Section 2, at <http://www.dscr.dla.mil/qap/qaps.htm>. DSCR (JUL 2002)

(a) Definition.

'Surplus material,' as used in this clause, means new, unused material that was purchased and accepted by the U.S. Government and subsequently sold by the Defense Reutilization and Marketing Service (DRMS), by contractors authorized by DRMS, or through another Federal Government surplus program. The terms 'surplus' and 'Government surplus' are used interchangeably in this clause.

(b) The Offeror agrees to complete this clause and provide supporting documentation as necessary to demonstrate that the surplus material being offered was previously owned by the Government and meets solicitation requirements. The Offeror must provide this information and any supporting documentation on or before the date that quotes/offers are due; or within the timeframe specified by the Contracting Officer, if additional documentation is requested after submission of the offer. Failure to provide the requested information and supporting documentation within the timeframe requested may result in rejection of the offer. Unless the solicitation states otherwise, Offerors of surplus material are authorized to open packages, inspect material, and reseal packages. Each time this is done, the Offeror's authorized representative or inspector must sign the packages where they were resealed and annotate the date of inspection.

(c) With respect to the surplus material being offered, the Offeror represents that:

(1) The material is new, unused, and not of such age or so deteriorated as to impair its usefulness or safety.  Yes  No

The material conforms to the technical requirements cited in the solicitation (e.g., Contractor and Government Entity (CAGE) code and part number, specification, etc.).  Yes  No

The material conforms to the revision letter/number, if any is cited.  Yes  No  Unknown If no, the revision offered does not affect form, fit, function, or interface.  Yes  No  Unknown

The material was manufactured by:

to a contract being entered into. In addition to any other inspection examinations and tests required by the contract, the performance of the end items will be required to be as good as that of the samples submitted insofar as specific performance tests have been made by the Government and the results thereof furnished to the Offeror.

(i) In the event of award, the Contractor will be responsible for providing material that is in full compliance with all requirements in the contract or order, whether or not the Contractor has possession of applicable drawings or specifications, and despite the fact that the Government is unable to conduct in-process inspection. The Contractor's responsibility to perform is not diminished by compliance with the requirement to demonstrate that the offered material was previously owned by the Government. The material to be furnished must meet the requirements of the current contract or order, whether or not the material met Government requirements in existence at the time the material was initially manufactured or sold to the Government. The Government has the right to cancel any resulting purchase order or terminate any resulting contract for default if unacceptable material is tendered.

(j) If higher level quality requirements apply to the material being acquired, those requirements do not apply to surplus material furnished under this contract.

I71 52.216-22 INDEFINITE QUANTITY (OCT 1995)

(d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after \* days from the date of contract expiration.

I88 52.217-9 OPTION TO EXTEND THE TERM OF THE CONTRACT (MAR 2000)

(a) The Government may extend the term of this contract by written notice to the Contractor within 60 days prior to contract expiration; provided, that the Government gives the Contractor a preliminary written notice of its intent to extend at least 120 days before the contract expires.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed 72 months.

reserves the right to revise, reassess, or update S&S requirements during the life of the contract.

**I92F 52.217-9G20 ADDITION/DELETION OF ITEMS ON CONTRACT DSCR (DEC 2000)**

(a) The Government retains the right to unilaterally delete from the contract, at each option renewal period, any items which were awarded on a sole source basis, in the event that an alternate product is available from another source.

(b) The Government reserves the right to bilaterally add to the contract new or replacement items, by modification, at prices to be negotiated. All new requirements are subject to full and open competition for the period of time remaining on the contract prior to addition to the contract.

(c) If any item in this contract becomes obsolete or is discontinued as a commercial catalog item, the contractor will provide the Government thirty (30) days advance written notice of such obsolescence, or cancellation and agrees to honor delivery orders for the item issued under this contract during such thirty (30) day period. The Government will delete any such item from this contract after receiving the required notice. If the contractor considers another commercial catalog item as a suitable substitute or replacement for the discontinued item, it will so advise the Government at the time it advises of the discontinued item. If the Government elects to include the replacement item in the contract, the contract will be modified accordingly.

(d) If the contractor discontinues an item without replacement, the contractor will advise the Government of alternate sources of supply for a comparable item.

**I92K 52.217-9G25 SURGE & SUSTAINMENT REQUIREMENT DSCR (JUN 2001)**

(a) Definitions. As used in this clause-

(1) 'Surge and Sustainment (S&S) Capability' means the ability of the contractor and base suppliers to meet increased quantity/accelerated delivery requirements, using production and supplier base capabilities, in support of a broad spectrum of possible Department of Defense contingencies. This capability includes both the ability to ramp-up to meet early requirements (i.e., surge), as well as to sustain an increased production and delivery pace throughout the contingency(ies) (i.e., sustainment). The spectrum of possible contingencies includes major theatre warfare and smaller-scale contingency operations.

(2) 'Surge and Sustainment (S&S) Quantity' means the quantity beyond peacetime level requirements necessary to support contingency operations. The quantity and required delivery are identified on an NSN basis, representing that needed to support two separate contingency operations for a specified time period, generally a year unless otherwise specified in the schedule.

(b) Scope of Requirement. The Contractor agrees to maintain the capability to produce and deliver the quantity of supplies or services identified in the schedule as the S&S requirement throughout the life of the contract. This capability shall be maintained in addition to peacetime level requirements and other existing Government contracts.

(1) Notification of S&S Capability Changes. Changes that negatively impact S&S capability shall be reported in writing to the Contracting Officer within ten working days after the contractor becomes aware of such impact. Such notification shall include the Contractor's proposed corrective action plan.

(2) Changes and Additions. The Government

(3) Agreement to Participate in S&S Validation/Testing. By submission of an offer for the S&S requirement, the contractor agrees to participate in S&S testing as required by the Government to validate the S&S capability. Testing/validation may include, but not be limited to, participation in live exercises, participation in Commander-in-Chiefs or Joint Chiefs of Staff exercises approved in the DLA Joint Training Plan, paper exercises, simulations, or command post exercises. The Government reserves the right to require tests using other methodologies when deemed appropriate.

(c) Ordering. Any S&S designated supplies or services to be furnished under this contract will be ordered in accordance with the ordering clause by issuance of delivery orders or task orders specifically identified as 'S&S Orders.'

(1) Effective Date for S&S Capability. Orders for the S&S quantity may be issued immediately after award unless the contractor has identified during negotiations, and the Government has approved, an alternate date for the contractor to attain the required S&S capability. The contractor's capability assessment shall clearly support the alternate date for attaining full S&S capability.

(2) Limitations. The order limitations clause applicable to the peacetime level requirements shall not apply to the S&S quantity to the extent that it conflicts with the quantity necessary to support a contingency. The Government reserves the right to order less than the total phased quantity specified for each S&S delivery. The Government may order in excess of each phased delivery quantity provided the contractor shall accept the excess quantity. Multiple orders for the same NSN may be issued to support multiple contingencies provided the total quantity ordered does not exceed the total S&S quantity for all phases of delivery.

(3) Contract Ceiling. The Government reserves the right to increase the contract ceiling as necessary to accommodate the S&S quantity to the extent such quantity was not considered when establishing the initial contract ceiling.

(d) Options to Extend the Contract Term: The Government may consider the contractor's performance of the S&S requirements in determining whether exercise of the option is the most advantageous method of meeting the Government's needs. Factors that may be considered include maintenance of the S&S capability; results of validation/testing; performance during an actual contingency; and other pertinent information related to the S&S requirement.

The following deviation is applicable to FAR Clause 52.232-25:

Paragraphs (a) (3) (iv) and (v) are deleted and replaced with the following:

(a) (3) (iv) Description, quantity, unit of measure, unit price, and extended price of supplies delivered or services performed. Unit of measure is not required for Electronic commerce (EC/EDI) contract.

(a) (3) (v) Shipping and payment terms (e.g., shipment number and date of shipment, prompt payment discount terms), except for POPS contract. Bill of Lading number and weight of shipment will be shown for shipments on Government bills of lading.

In addition to the above deviation, the following clarification is added to ensure proper payment of invoice:

(a) (3) (iv) The invoice price shall correspond to the unit of issue price specified in the contract. For example, if 12 each (EA) equals 1 box (BX) and the contract specifies EA, but you sell the item by BX, the invoice must be submitted on an EA price basis.

I199 52.233-1 DISPUTES (JUL 2002)

DSCR NOTE:

DSCR has in place a process to mediate two types of contract disputes: (1) contract claims filed pursuant to the Contract Disputes Act of 1978, as amended, 41 U.S.C. 601-613, (CDA), prior to issuance of a final decision by the contracting officer, that arise as a result of either a contractor or government claim, except for proposed Terminations for Default, and (2) other contract disputes, resulting from an issue in controversy, that the contracting officer determines suitable for mediation. Mediation involves a neutral, called a mediator, who assists both parties as they try to resolve their dispute voluntarily and produce a solution that is acceptable and beneficial to both. After unassisted negotiations over an issue in controversy have proven ineffective in either situation, the contracting officer will contact the contractor seeking to resolve the dispute through mediation. In either situation, a contractor's decision not to engage in mediation shall be conveyed in writing to the contracting officer.

Mediation undertaken pursuant to this process does not waive the statutory time limitations of the CDA, within which a contracting officer must issue a final decision on a claim filed pursuant to the CDA, as expressed in FAR Clause 52.233-1, Disputes, paragraph (e). If mediation is unsuccessful, the parties retain their existing rights under the CDA. (99140)

K2 52.203-2 CERTIFICATE OF INDEPENDENT PRICE DETERMINATION (APR 1985)

(a) The offeror certifies that:

(1) The prices in this offer have been arrived at independently, without, for the purpose of restricting competition, any consultation, communication, or agreement with any other offeror or competitor relating to (i) those prices, (ii) the intention to submit an offer, or (iii) the methods or factors used to calculate prices offered.

(2) The prices in this offer have not been and will not be knowingly disclosed by the offeror, directly or indirectly, to any other offeror or competitor before bid opening (in case of a sealed bid solicitation) or contract award (in the case of a negotiated solicitation) unless otherwise required by law; and

(3) No attempt has been made or will be made by the offeror to induce any other concern to submit or not to submit an offer for the purpose of restricting competition.

(b) Each signature on the offer is considered to be a certification by signatory that the signatory --

(1) Is the person in the offeror's organization responsible for determining the prices being offered in this bid or proposal, and that the signatory has not participated and will not participate in any action contrary to Subparagraphs (a) (1) through (a) (3) above; or

(2) (i) has been authorized, in writing, to act as agent for the following principals in certifying that those principals have not participated, and will not participate in any action contrary to Subparagraphs (a) (1) through (a) (3) above . . .

(Insert below the full name of person(s) in the offeror's organization responsible for determining the prices offered in this bid or proposal, and the title of his or her position in the offeror's organization);

TITLE: \_\_\_\_\_

(ii) As an authorized agent, does certify that the principals named in Subdivision (b) (2) (i) above have not participated, and will not participate, in any action contrary to Subparagraphs (a) (1) through (a) (3) above; and

(iii) As an agent, has not personally participated, and will not participate in any action contrary to Subparagraphs (a) (1) through (a) (3) above.

(c) If the offer deletes or modifies Subparagraph (b) (2) above, the offeror must furnish with its offer a signed statement setting forth in detail the circumstances of the

disclosure.

K4A 52.203-11 CERTIFICATION AND DISCLOSURE REGARDING PAYMENTS TO INFLUENCE CERTAIN FEDERAL TRANSACTIONS (APR 1991)

(a) The definitions and prohibitions contained in the clause, at FAR 52.203-12, Limitation on Payments to Influence Certain Federal Transactions, included in this solicitation, are hereby incorporated by reference in paragraph (b) of this certification.

(b) The offeror, by signing its offer, hereby certifies to the best of his or her knowledge and belief that on or after December 23, 1989, --

(1) No Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress on his or her behalf in connection with the awarding of any Federal contract, the making of any Federal Grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment or modification of any Federal contract, grant, loan, or cooperative agreement;

(2) If any funds other than Federal appropriated funds (including profit or fee received under a covered Federal transaction) have been paid, or will be paid, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress on his or her behalf in connection with this solicitation, the offeror shall complete and submit, with its offer, OMB standard form LLL, Disclosure of Lobbying Activities, to the Contracting Officer; and

(3) He or she will include the language of this certification in all subcontract awards at any tier and require that all recipients of subcontract awards in excess of \$100,000 shall certify and disclose accordingly.

(c) Submission of this certification and disclosure is a prerequisite for making or entering into this contract imposed by section 1352, title 31, United States Code. Any person who makes an expenditure prohibited under this provision or who fails to file or amend the disclosure form to be filed or amended by this provision, shall be subject to a civil penalty of not less than \$10,000, and not more than \$100,000, for each such failure.

K6 52.207-4 ECONOMIC PURCHASE QUANTITY - SUPPLIES (AUG 1987)

(a) Offerors are invited to state an opinion on whether the quantity(ies) of supplies on which bids, proposals, or quotes are requested in this solicitation is (are) economically advantageous to the Government.

(b) Each offeror who believes that acquisition in different quantities would be more advantageous is invited to recommend an economic purchase quantity. If different quantities are recommended, a total and a unit price must be quoted for applicable items. An economic purchase quantity is that quantity at which a significant price break occurs. If there are significant price breaks at different quantity points, this information is desired as well.

(a) Offerors are advised that electronic order transmission is available for use via the Paperless Order Placement System (POPS) application. If the successful offeror chooses to use Electronic Data Interchange (EDI), they will be required to have a compatible computer system capable of accepting our offers and processing EDI transactions. The American National Standards Institute's (ANSI) X12 Standard will be utilized for formatting the EDI transactions. The EDI system must be available for on line processing not later than 30 days after award.

(b) The computer system must also be Year 2000 (Y2K) Compliant. Year 2000 compliant, used with respect to technology, means that the information technology accurately processes date/time data (including, but not limited to, calculating, comparing, and sequencing) from, into, and between the twentieth and twenty-first centuries, and the years 1999 and 2000 and leap year calculations, to the extent that other information technology, used in combination with the information technology being acquired, properly exchanges date/time data with it.

(c) The following ANSI X12 transaction sets are currently sent, received, and processed by the Defense Supply Center Richmond:

- 850 Purchase/Delivery Order Transaction Set
- 856 Ship Notice/Manifest Transaction Set

(d) Offerors must be capable of sending, receiving, and processing the above ANSI X12 transaction sets and have an electronic mailbox on a DAASC certified Value Added Network (VAN). For 856 Ship Notice/Manifest Transaction Sets the awardee will have the option of using the Web-856 application, if it becomes available.

(e) Information regarding EDI, ANSI X12 transactions, and DAASC approved VANS can be obtained from the DAAS web site by going to [www.daas.dla.mil](http://www.daas.dla.mil), then select SYSTEMS & SERVICES, next select EC/EDI, and lastly select DAASC's VAN LIST.

Contractors are reminded of the requirements of paragraph (c)(1). The Government will automatically reject and will not consider any submission marked or that appears to be only a quote, whether submitted electronically or in paper media.

DSCR (OCT 2001)

(a) Proposals submitted in response to this solicitation shall include a proposed approach to meeting the Surge & Sustainment (S&S) requirement identified in the schedule. The proposed approach shall include the initial ramp up (surge) and subsequent production and delivery (sustainment) of supplies to support simultaneous contingencies. The contractor's proposed approach shall be supported by a production capability assessment, as an attachment to the proposal, containing, but not limited to, the following areas:

(1) The contractor's methodology enabling visibility of supplier base resources on a continuing basis.

(2) Identify supplier base inventories, production capability, on-demand manufacturing and advanced technology capabilities, or any other means of support available to meet S&S requirements and, based on this identification, a description of S&S strategies for all items.

(3) Identify 'problem' items for which S&S cannot be easily met, proposed solutions for these items, and any significant investments (dollars or otherwise) needed to implement these solutions, including investments by the Government.

(4) Describe access to, and plans for, coordinating distribution and transportation services for meeting S&S requirements.

(5) The contractor's agreements with suppliers and service providers that reflect access to S&S resources.

(6) Clearly identify any significant investments (dollars or otherwise) required to resolve the problem areas identified under subparagraph (3), or other subparagraphs above, needed to develop S&S capability, including, but not limited to, the following information:

- (i) Why the investment is needed;
- (ii) what will be purchased with the investment;
- (iii) basis for the investment cost;
- (iv) the S&S capability to be gained from the investment; and,
- (v) for investments needed to affect strategies, an analysis of what strategies were considered and why the proposed strategies are the most cost effective.

(a) Offerors claiming Facilities Capital Cost of Money in accordance with FAR Clause 52.215-16 in Section I of this solicitation are required to complete and submit with the proposal Form CASB-CMF. Forms are available from the offeror's cognizant ACO. Instructions for completion of the CASB form are provided at FAR Appendix Cost Accounting Standards, Preambles and Regulations, Subpart 9904.414, Appendix A. In addition, offerors must provide the distribution of facilities capital employed as follows:

LAND \_\_\_\_\_ %, BUILDING \_\_\_\_\_ %, EQUIPMENT \_\_\_\_\_ %.

(b) If the offeror does not include Facilities Capital Cost of Money with the proposal, this provision does not apply.

**L75 52.233-2 SERVICE OF PROTEST (AUG 1996)**

(a) Protests, as defined in Section 33.101 of the Federal Acquisition Regulation, that are filed directly with an agency, and copies of any protests that are filed with the General Accounting Office (GAO), shall be served on the --

Contracting Officer

by obtaining written and dated acknowledgment of receipt from the issuing office referenced on the solicitation/award.

**L75B 52.233-9000 AGENCY PROTESTS DLAD (SEP 1999)**

Companies protesting this procurement may file a protest

1. with the contracting officer,
2. with the General Accounting Office, or
3. pursuant to Executive Order No. 12979, with the Agency for a decision by the Activity's Chief of the Contracting Office.

Protests filed with the agency should clearly state that they are an 'Agency Level Protests filed under Executive Order No. 12979.' (Note: DLA procedures for Agency Level Protests filed under Executive Order No. 12979 allow for a higher level decision on the initial protest than would occur with a protest to the contracting officer; this process is not an appellate review of a contracting officer's decision on a protest previously filed with the contracting officer). Absent a clear indication of the intent to file an agency level protest, protests will be presumed to be protests to the contracting officer.

DSCR NOTE:

Executive Order 12979 encourages the use of Alternative Dispute Resolution in resolving Agency-level protests. Therefore, DSCR has in place a process to mediate Agency-level protests filed pursuant to Executive Order 12979. Mediation is a voluntary process where the parties meet with a third party neutral (the mediator) to discuss their positions and open a dialogue. The mediator does not make any decisions on the dispute, but rather helps the parties explore their concerns and possible avenues for solutions. Any mediation will occur at DSCR. A trained DSCR mediator who has not had previous personal involvement in the procurement will conduct the mediation. If resolution of the protest is not reached through the mediation process, the protest will be forwarded to the Chief of the Contracting Office for a written decision on the record. If an offeror wishes to file an Agency-level protest, but does not wish to engage in a mediation, the Agency-level protest should state that the protesting party does not wish to participate in a mediation and would like a decision on the written record.

**L82 52.252-1 SOLICITATION PROVISIONS INCORPORATED BY REFERENCE (FEB 1998)**

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is

DSCR NOTE: Where only a portion of text is included in the solicitation document in order to provide or collect fill-in data or to append a DSCR note to a FAR/DFARS provision, the text as included in the solicitation is not intended to be represented as the full text of the provision.

**L83 52.252-5 AUTHORIZED DEVIATIONS IN PROVISIONS (APR 1984)**

(a) The use in this solicitation of any Federal Acquisition Regulation (48 CFR Chapter 1) provision with an Authorized deviation is indicated by the addition of '(Deviation)' after the date of the provision.

(b) The use in this solicitation of any Defense FAR Supplement (48 CFR chapter 2) provision with an authorized deviation is indicated by the addition of '(Deviation)' after the name of the regulation.

**M3 52.209-9G05 EVALUATION-FIRST ARTICLE APPROVAL DSCR (JAN 1996)**

(a) Estimated costs of Government testing will be a factor in evaluation of offers to the extent that such costs are shown below:

**M3B 52.211-9003 CONDITIONS FOR EVALUATION OF OFFERS OF GOVERNMENT SURPLUS MATERIAL DLAD (APR 2002)**

(a) Definition.

'Surplus material,' as used in this provision, has the same meaning as in the clause at 52.211-9000, Government Surplus Material.

(b) The Agency will evaluate an offer of surplus material when the Contracting Officer determines the Offeror is otherwise in line for award, after adding the cost of evaluation (\$200 for internal evaluation and, if applicable, an additional \$500 for each Engineering Support Activity (ESA) evaluation, plus any additional fees required for special testing and/or inspection).

(c) When an offer is for a quantity less than the solicited quantity, the contracting officer will consider the \$500 cost of issuing and administering more than one award. The contracting officer will also consider the

anticipated impact on the unit price of the remaining quantity, to determine the total cost to the Government.

M10AA	52.215-9003	SOCIOECONOMIC EVALUATIONS DLAD (OCT 1996)

M10F	52.215-9G05	AUTOMATED BEST VALUE SYSTEM DSCR (JUL 2002)

(a) The Automated Best Value System (ABVS) Score as an Element of Past Performance Evaluation.

(1) ABVS scores do not determine eligibility for award or technical acceptability. The Government shall use ABVS scores to compare past performance among offerors, not to make determinations of responsibility.

(2) To evaluate each offeror's past performance, DLA will assign an ABVS score to each offeror based on the offeror's past performance. ABVS scores for performance in each Federal Supply Class (FSC score) will be based on DLA consolidated performance history. An offeror may have multiple FSC scores but will have only one DLA score, which is a compilation of the offeror's FSC scores for all business conducted with DLA. These scores will be calculated monthly and remain in effect for a month. The ABVS score is a combination of an offeror's delivery and quality scores. The quality score reflects validated contractor caused product and packaging nonconformances during the rating period. For administrative purposes, the rating period excludes the most recent 30 days. The delivery score reflects all lines shown as delinquent during the rating period. For administrative purposes, the rating period excludes the most recent 60 days. For ABVS purposes, delinquent lines represent shipments not shipped and/or received in their entirety by the contract delivery date. The 30 and 60 day offset periods are NOT grace periods.

(3) Business Systems Modernization.

(i) The Defense Logistics Agency is developing and installing a new suite of commercial business software we call Business Systems Modernization (BSM). BSM will replace the old material management systems with the best of today's business applications. The first phase of BSM that will affect both DLA and our business partners is called the Concept Demonstration. This Concept Demonstration will use actual BSM software, real time data and actual transactions such as solicitations and awards. But because of the new software being tested, certain processes will change during the test and one of the most important is the change in ABVS. The collection of past performance information for certain NSNs in ABVS has been changed by the new software and will be affected by this Concept Demonstration beginning in August 2002.

(ii) Beginning in August 2002, ABVS will not collect performance information on NSNs that are included in this BSM test. The performance data for quality and delivery performance from new contract awards for these NSNs will not be used in the calculation of FSC scores. The contract line items will also not be included in the total number of contract line items on which the FSC score is based. Subsequently, the DLA score, which is a compilation of the FSC scores, will not include performance data from new awards on these NSNs. For NSNs, which are not in the BSM test, ABVS will continue to work as it does today.

(iii) In order to determine if a NSN or FSC is included in this BSM test, go to the BSM Supplier Information Resource Center, <http://www.dla.mil/j-6/bsm/SIRC/SIRC.htm>. Awards not included in the ABVS performance data will be identified by contract numbers beginning with SPMXXX or SPEXXX in lieu of SPOXXX (this does not apply to orders issued against non-DLA Basic Ordering Agreements or contracts).

(iv) This change also means that your ABVS score in BSM will be your DLA score only; the FSC score will not be visible. This initial release will provide an opportunity for DLA, our customers, and our suppliers to

use the new technology and processes to improve our supply chain effectiveness. Further information is found at the BSM Vendor Information Center at <http://131.70.202.70/j%2D6/bsm/test/vic.htm>.

(4) DSCR will make negative quality and delivery data reflected in the ABVS score available to offerors by the 15th day of the month via the ABVS Website. The offeror's negative performance data will be posted before it is reflected in the ABVS score (Preview Period), to give offerors an opportunity to review and verify data. An offeror must challenge any negative data within the Preview Period to assure corrections are posted before calculation of the score. Offerors must submit challenges and substantiating evidence (e.g. invoices, DD Form 250s, modifications) to the ABVS Administrator. The 'Center' field will identify the appropriate focal point. For those identified as 'DSCR,' send challenges to:

Defense Supply Center Richmond  
Attn: DSCR-OZP (ABVS)  
8000 Jefferson-Davis Highway  
Richmond, VA 23297-5516

Telephone (804) 279-6881  
FAX (804) 279-5042

(5) Though offerors may challenge negative data at any time, it is to the offeror's advantage to challenge negative data during the Preview Period before it has an opportunity to be reflected in the ABVS score. Accordingly, an offeror should review performance data on a monthly basis at a minimum. When a challenge is received, the ABVS score will be flagged. The flag will remain until the challenge is resolved. If an offer under evaluation involves a challenged score, then the Contracting Officer will consider the nature of the challenged data and its relevance to the acquisition as part of the award decision. The ABVS Administrator will adjust the ABVS score if the Administrator upholds an offeror's challenge. Scores created in the update cycle immediately following the determination will reflect the adjustment.

(6) When there is a discrepancy between the offeror's challenged data and the Government's data, it becomes disputed data. The Government will make every effort to resolve the discrepancy expeditiously. However, the Government is the final authority for resolution of disputed data and its use in the source selection process, and may make an award decision despite the existence of an unresolved challenge.

(b) Using the ABVS score for evaluation.

(1) The contracting officer will first evaluate offers using the FSC score for the solicited FSC in effect at the time offers are evaluated. The contracting officer will use an offeror's DLA score to evaluate an offeror without an FSC score for that particular FSC. The contracting officer may consider the volume of business on which the FSC score is based as a measure of confidence in the score's indication of performance risk. The contracting officer may choose to use the DLA score if he or she lacks confidence in the FSC score. The contracting officer also may use the DLA score if the FSC scores among offerors are relatively equal. An offeror with no performance history will not be evaluated favorably or unfavorably and will be assigned a '999.9' in the ABVS. A '999.9' is used to designate those instances wherein the offeror has no past performance history, has no history for the particular FSC or has no history for the timeframe being rated.

(2) Contractor caused discrepancies or delinquencies will be reflected in the ABVS as an indicator of past performance. Repair, replacement or reimbursement of quality and packaging defects will not provide relief of negative ABVS data. Contractor caused delivery extensions, regardless of consideration paid, will be reflected in the delivery score.

M10G	52.215-9G06	EVALUATION AND AWARD DSCR (FEB 2000)
------	-------------	--------------------------------------

(a) AWARD. The Government intends to evaluate proposals and, if necessary, conduct discussions with all responsible offerors within the competitive range. The award will be made to the offeror whose proposal conforms to the terms and conditions of the solicitation and represents the best value to the Government. Therefore, award may be made to other than the lowest priced or the

CONTINUED ON NEXT PAGE

highest technically rated offer.

(b) **RELATIVE IMPORTANCE AND TRADE-OFFS.** The Government will base the determination of best value on a comparative assessment of the offerors' prices, past performance, and the other evaluation factors identified elsewhere in this solicitation. The determination of best value also considers the relative importance of the evaluation factors. All evaluation factors, when combined, are:

- significantly more important than cost or price. As other evaluation factors become more equal, the evaluated cost or price becomes more important.
- approximately equal to cost or price; or
- significantly less important than cost or price. As the evaluated cost/price becomes more equal, relative importance of all other evaluation factors becomes more significant.

The final award decision may involve a trade-off among cost or price and the non-price factors. Factors that may be considered in the trade-off process include, but are not limited to:

Item criticality and weapons system application  
Delivery schedule and current inventory status  
Historical delivery or quality problems  
Concerns over limited supply sources and industrial base  
Benefits from obtaining new sources

(c) **COST OR PRICE.** The Government will evaluate the offered cost or price for cost realism, as defined in FAR 15.401, and reasonableness. The Government will add any other cost or price evaluation factors identified elsewhere in this solicitation (e.g. Buy American Act or FOB Origin transportation costs) to arrive at the offeror's evaluated cost or price. The evaluated cost or price will be used in conjunction with the other non-price factors to determine the best value to the Government.

(d) **PAST PERFORMANCE EVALUATION FACTORS.** The Government will use the past performance evaluation factors marked below in addition to cost or price and other evaluation factors specified in the solicitation. Unless indicated otherwise, past performance is significantly more important than other non-price factors. Within the past performance subfactors, ABVS scores will be weighed most heavily because of their relevance to DSCR awards. Quality history and delivery schedule compliance will be weighed more heavily than the remaining past performance subfactors. All other non-price evaluation factors specified in this solicitation weigh equally, unless otherwise indicated.

- ABVS Score (52.215-9G05)
- Quality History
- Delivery Schedule Compliance
- Javits-Wagner-O'Day (JWOD) (52.215-9005)
- Mentoring Business Agreements (MBA) (52.219-9003)
- Socioeconomic Support (52.215-9003)
- Other (specify):

(e) **PAST PERFORMANCE.** Past performance includes, but is not limited to, the offeror's record of conforming to contract requirements and standards of good workmanship; adherence to contract schedules, including the administrative aspects of performance; the offeror's reputation for reasonable and cooperative behavior and commitment to customer satisfaction; and generally, the offeror's business-like concern for the customer's interest.

(i) Offerors may submit with their offer information on past and current Federal (non-DSCR), State and local government and private sector contracts performed by the offeror at the proposed performance location within the last three years that are similar in nature to this

acquisition. Offerors electing to submit this data must furnish at least the following information: name and address of the contracting entity; the contract number; award and completion dates; the dollar value; the contract type; the items or services provided; two references, with title and phone number; and any problems encountered and the corrective action taken by the offeror.

(ii) By submitting past performance information, the offeror agrees to permit the Government's representatives to contact the listed references and inquire of the offeror's performance. If more than three contracts are identified, the Government reserves the right to randomly select and limit its review to three contracts. In addition to the information provided, the Government may consider information obtained from other sources when evaluating the offeror's past performance. Offerors will be given the opportunity to discuss negative past performance information obtained from references if the offeror has not had a previous opportunity to comment on that information.

(iii) In addition to the information above, DSCR will use the Automated Best Value System (ABVS) to evaluate quality and past performance on DLA awards (see 52.215-9G05).

(iv) Offerors with no past performance history (whether internal or external to the Federal government) will not be evaluated favorably or unfavorably.

**M12 52.216-9G09 EVALUATION - INDEFINITE QUANTITY CONTRACT DSCR (NOV 1996)**

Offers will be evaluated on the basis of the estimated annual quantity. If quantity breaks are offered with various prices, the highest price offered will be used for evaluation.

If line items for both stock and DVD are included in the schedule offers will be evaluated based on the total extended price for the stock and DVD line items.

**M15 52.217-5 EVALUATION OF OPTIONS (JUL 1990)**

**M18 52.217-9G11 EVALUATION OF OPTION TO EXTEND THE TERM OF THE CONTRACT - SUPPLIES DSCR (JAN 1996)**

The evaluation of options to extend the term of the contract as required by either FAR Clause 52.217-5 (Section M) or 52.212-2 will be based on the highest possible option price offered for each option as specified in DSCR Clause 52.217-9G08 (Section I).

**M19CA 52.217-9G27 SURGE & SUSTAINMENT EVALUATION - MINIMUM REQUIREMENT DSCR (JUNE 2001)**

(a) Evaluation. The surge & sustainment (S&S) requirement identified in the schedule represents a minimum requirement for award; therefore, offerors that fail to offer for the S&S requirement or submit proposals that are deficient may be rejected. The S&S capability assessment specified in 52.217-9G26 will be evaluated to determine the offeror's ability to meet the increased quantity/accelerated delivery requirements identified in the schedule for S&S.

(b) Acceptable Standard. Acceptable proposals must:

(1) describe a methodology which enables visibility of supplier base resources on a continuing basis;

(2) identify supplier base inventories, production capability, on-demand manufacturing and advanced technology capabilities, or any other means of support available to meet S&S requirements and, based on this identification, provide a description of S&S strategies for all items;

(3) identify problem items for which S&S cannot be easily met, propose solutions for these items, and identify any significant investments (dollars or otherwise) needed to implement these solutions;

(4) describe access to, and plans for, coordinating distribution and transportation services for meeting S&S requirements; and

(5) provide information regarding agreements with subcontractors, suppliers and service providers, if applicable, that reflect access to S&S resources;

(6) identify any significant investment (dollars or otherwise) under (3) or other subparagraphs above, needed to develop S&S capability, with the following information:

- (i) An explanation of why the investment is needed.
- (ii) A description of what items or materials will need to be purchased with the investment.
- (iii) Provide a justification/basis for the investment cost.
- (iv) Identify the S&S capability to be gained from the investment.
- (v) For investments to effect S&S strategies, an analysis of what strategies were considered and why the proposed strategies are the most cost effective.

(c) Acceptable Standard Commercial. The following standard shall apply in lieu of paragraph (b) for commercial items that are readily available and accessible in sufficient quantities to meet the S&S requirements. Adequate proposals shall:

- (1) provide information to support the rationale for concluding that the S&S items are readily available;
- (2) describe how access to these resources will provide the ability to meet S&S requirements; and
- (3) identify a plan for coordinating distribution and transportation services for meeting S&S requirements
- (d) Deficient Proposals. Proposal revisions to correct deficiencies in S&S capability may be addressed during negotiations with offerors determined within the competitive range.

(e) Price. Price(s) associated with S&S items will be evaluated for reasonableness and realism in accordance with proposal analysis techniques specified in FAR 15.404. The total evaluated price associated with a proposal will include S&S prices/costs only to the extent such prices/costs represent:

- (1) the dollar amount that must be obligated or reserved at time of award to implement and or maintain the S&S capability and
- (2) the dollar amount associated with a confirmed requirement to support an actual contingency.

(f) Materially Unbalanced Offers. The Government may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or subline items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract lines is significantly overstated or understated as indicated by application of cost or price analysis techniques. A proposal may be rejected if the Contracting Officer determines that lack of balance poses an unacceptable risk to the Government.
